

**Name of meeting and date:** CABINET 30 MARCH 2010

**Title of report:** PARKING TARIFFS

|  |   |
|--|---|
| <b>Is it likely to result in spending or saving £250k or more, or to have a significant effect on two or more electoral wards?</b> | YES                                     |
| <b>Is it in the Council's Forward Plan?</b>  | YES                                     |
| <b>Is it eligible for "call in" by Scrutiny?</b>   | YES                                     |
| <b>Cabinet member portfolio</b>  | REGENERATION, ENVIRONMENT AND TRANSPORT |

**Electoral wards affected and ward councillors consulted:**

**Public or private:** PUBLIC

## 1. Purpose of report

To consider fees and charges in the Council's on and off-street pay and display parking spaces.

Parking charges are designed to manage the demand and encourage high turnover to ensure parking availability.

## 2. Key points

2.1 Parking tariffs were last reviewed in December 2006, a review is now required.

2.2 In reviewing tariffs the following principles and priorities have been used.

- a) encouraging town centre parking for shoppers.
- b) maintaining the sustainability of our town and village centres.
- c) higher tariffs in high demand car parks to encourage turnover.
- d) balancing car park use by using differing tariff levels.
- e) maintaining tariff levels where shoppers have little choice.
- f) maintaining tariff levels for shoppers where occupancy is low.
- g) comparing tariff levels in neighbouring towns.
- h) not introducing new tariffs in towns/centres where none exist at present.
- i) continuing investment into the car park infrastructure.

The scale of parking charges coupled with the permitted length of stay may influence customers on where they shop or visit, which in turn affects the viability of local businesses and the vitality of towns and villages. These factors also influence the

number of car journeys and distances travelled by people for shopping and leisure purposes.

The pay and display charges in Kirklees are on a progressive scale that is designed to encourage a high level of turnover, whilst allowing reasonably priced longer stay opportunities for people who wish to spend more time. It is believed this approach maximises the use of the Council's public car parking stock for the benefit of local businesses, residents and visitors alike.

Having reviewed the current tariff levels for both off and on-street parking the following tariff changes are proposed, for implementation from 1<sup>st</sup> June 2010. For, specific details on the streets and car parks affected by these proposed changes see Appendix A1 – A4.

The changes proposed are intended to assist in the continued effective management of the Council's parking stock, as well as supporting local businesses.

## 2.3 Shoppers (short stay on-street)

### 2.3.1 Huddersfield

Tariffs to be adjusted from 70p/30mins, £1.40/60mins and £2.10/90mins (maximum stay 90mins) to £1/45mins and £2/90mins (maximum stay 90 minutes).

### 2.3.2 Dewsbury

Tariffs to be adjusted from 40p/30mins, 70p/60mins, £1.00/90mins (maximum stay 90mins) to 50p/45mins and £1.00/90mins (maximum stay 90 minutes)

### 2.3.3 Miscellaneous tariffs

- a. Introduction of a new tariff of £10 per lorry, per night for Sands Lane Lorry Park in Dewsbury
- b. Amending the charges for business (inc landlords and traders) permits to ensure the price bands more effectively reflect the use of these permits (current tariff £115/yr, proposed £200/yr)
- c. To bring season ticket prices in line with the proposed tariff levels.

### 2.3.4 Parking Appeals Process

To adopt a more robust approach to parking enforcement and appeals to reduce the income lost through those who flout the restrictions at the expense of the honest majority who park correctly and within the law.

## 3. Implications for the Council

The direct effect of tariff increases is always difficult to predict exactly, as the Council are reliant on peoples parking habits, however, it is felt that the proposed tariff changes should keep income within the budgeted levels that have been built into the Councils' 2010/11 revenue budget.

The above proposed amendments will facilitate prudent management of the Council's parking asset.

Legal Implications: The council has the power under the Road Traffic Act 1984 to vary its parking charges and to introduce new charges. Where variations/new charges are introduced, the Council must advertise an order before making a final decision to implement the new charges.

The cost of the necessary Traffic Regulation Orders and direct implementation costs such as changes to signing and ticket machines will be covered by the income generated from these proposals.

#### **4. Consultees and their opinions**

WD Kingsgate Ltd are currently being consulted on these proposals. This is a contractual requirement.

A verbal report will be provided at the Cabinet meeting on the response by WD Kingsgate Ltd.

Ward Councillors are not normally consulted on tariff changes/amendments.

#### **5. Officer recommendations and reasons**

It is recommended that Cabinet:

- (i) approves the parking tariffs set-out in the schedules in Appendices A1 – A4 and also
- (ii) subject to (i) above, authorise officers to carry out the appropriate legal procedures to bring into effect the new parking charges as shown in the attached schedules in Appendices A1 – A4 from the 1<sup>st</sup> June 2010.

There is a need to ensure any tariff changes are kept to a reasonable level to avoid adverse impacts on local businesses. This current pricing structure, the first in 3 years, seeks to favour short-stay over long-stay parking, which is considered the most appropriate in terms of helping to support local businesses in difficult economic times.

#### **6. Cabinet portfolio holder recommendation**

I support the officer recommendation to approve the parking tariff changes set out with Appendices A1 – A4.

#### **7. Next steps**

Subject to cabinet approval, public notices will need to be posted giving Notice of Amendment to the Kirklees Council Parking Places Traffic regulation Order's. There will be resource implications in the publishing of notices, production and posting of revised tariff boards, and the re-programming of Pay and Display machines, which will be met from the Car Park Revenue Budget 2010/11

#### **8. Contact officer and relevant papers**

Contact Officer: Paul Hawkins

Direct Dial: (01484) 225506

Email: paul.hawkins@kirklees.gov.uk

#### **9. Head of Service**

Jacqui Gedman

Assistant Director Highways and Transportation
