17.	<p>Question by Councillor D Hall to The Leader of the Council – Councillor Pandor</p> <p>“On Wednesday 29th May Cabinet held a long debate on the future of Almondbury Community School. One parent asked why Academy status could not be a solution, citing BBG High School as a case study. You replied:</p> <p><i>“Regarding BBG. If you look at the children in that particular area, in Batley and Spen, that’s where you’re talking about, and you look at the numbers and the catchment areas, that school would not be viable to sustain that school. The only reason that school is sustainable is because the children that have come into that area come from outside the area. When that happens schools that are in other areas automatically then reduce the numbers and this is what I say, parental choice, so other schools in that area are in a similar situation whereby they become unsustainable and, by being unsustainable, other factors come in.</i></p> <p>Can you justify those specific remarks about BBG High School?”</p> <p>The Leader of the Council to respond</p>

23.	<p>Question by Councillor McGuin to The Cabinet Member for Regeneration – Councillor McBride</p> <p>“Barry Sheerman says that you are sympathetic to commercial development on Castle Hill. Does this mean you reject what is the Local Plan?”</p> <p>The Cabinet Member to respond</p>
