8 Children in Care Services Performance Highlights

The Board received a Service Update report with regards to the provision of services to vulnerable Children, Young People, their families and their carers During COVID 19. The report also provided a wider overview of the actions and steps taken to ensure that children in Kirklees are safe and contact is maintained during the current emergency.

The report outlined a range of measures that had been undertaken to support the workforce across a range of services including managerial support, check-ins, prioritisation clarity and advice on dealing with Covid-19 presenting clients. Information was also set out in respect of front door access for social care services and the work of the Assessment and Intervention Teams.

Julie Bragg advised that there had been an increase in referrals relating to domestic violence issues.

With regard to the numbers of Children in Care, it was reported that there had been an increase of 12 to 687 from the start of the lockdown period. Court processes have continued in respect of those children subject to care orders.

Tom Brailsford provided an update in respect of residential care and foster care. It was reported that residential homes had kept running as normal as possible, with initial issues on PPE at the start of the pandemic. All settings have been risk assessed, which did result in the suspension of respite provision at Orchard View and the Young Persons Activity offer. With regard to capacity alternative temporary settings have had to be registered. Work has been ongoing with KFN to help with the stability of placements with a new payment system being introduced.

Question and comments were invited from the Board and the following issues were raised:
