**13 Mental Health Support for Children in Care and Thriving Kirklees Update**

The Board received a report providing an overview of the Emotional wellbeing and mental health support provided to Children in Care and the commissioning review of the Thriving Kirklees Partnership.

Kirklees has commissioned dedicated services to ensure that Children in Care receive a timely, high quality service. A dedicated multi-disciplinary team is embedded within Kirklees Council Children's services to provide holistic support to children and families. Within the team are a number of specialised clinicians employed by South West Yorkshire Foundation Trust (SWYFT) to provide a high level of clinical support to children and their carers.

## Corporate Parenting Board - 30 September 2020

The team includes a Clinical Psychologist who, as well as providing direct mental health support to children and families, also provides clinical support and advice to the clinical teams and staff in residential settings. This includes supporting their learning and development and providing training.

There is a dedicated Child Psychotherapist who provides in depth support and therapy, particularly to younger children and their carers, providing rapid access to this specialist service.

As a result of a recommendation in the 2016 Ofsted report, a Senior Mental Health Practitioner role was commissioned to work with Care Leavers (17+ years). The practitioner provides direct therapeutic work with young people, including Cognitive Behavioural Therapy, Moodmasters group therapy and holds drop-in sessions at no. 11 and no.12. It was reported that the drop-in sessions had to be postponed during the Covid restrictions but work is currently underway to re-open these facilities.

Additionally there is facility through Northorpe Hall Trust for Children in care to be referred for support from the Children's Emotional Wellbeing Service (ChEWS) where they have priority access to therapists and counsellors.

It was reported that currently there is no waiting list for Children in Care. In the past year 53 children have accessed the service. The average waiting time from referral to first appointment has been 4 weeks, compared to 20 weeks for the equivalent general service. The length of intervention for Children in Care is, on average, 15 weeks longer than that experienced by a young person in the ChEWS service.

With regard to the Thriving Kirklees Partnership it was explained that a report will be produced in early October with a summary of findings and initial recommendations. Stakeholder events will be held to inform an action plan, which will be developed between October and December.
