

Name of meeting: Children's Scrutiny Panel

Date: 11th June 2018

Title of report: Draft Children's Interim Sufficiency Strategy & Action Plan (2018-19)

Purpose of report

1. That members of Scrutiny Panel note the content of this report and the draft Children's Interim Sufficiency Strategy and Action Plan (2018-19) (Appendix 1); and
2. To ask Scrutiny to comment on the draft Strategy and Action Plan to contribute towards its further development (Appendix 1).

Key Decision - Is it likely to result in spending or saving £250k or more, or to have a significant effect on two or more electoral wards?	N/A (not a commissioning proposal)
Key Decision - Is it in the Council's Forward Plan (key decisions and private reports?)	No
The Decision - Is it eligible for call in by Scrutiny?	Yes
Date signed off by <u>Service Director</u> & name	Elaine McShane (30/5/18)
Is it also signed off by the Service Director for Finance IT and Transactional Services?	N/A
Is it also signed off by the Service Director for Legal Governance and Commissioning Support?	N/A
Cabinet member portfolio	Cllr Viv Kendrick

Electoral wards affected: N/A

Ward councillors consulted: N/A

Public or private: Public

1. **Summary**

As part of our Improvement Plan, we committed to producing a Sufficiency Strategy and Action Plan setting out how we will increase the availability of local placements to ensure that children and young people do not need to be placed at a distance from their communities. This draft Interim Strategy and Action Plan sets out our approach until the end of calendar year 2019. Its key outcomes are children feeling confident our decisions more clearly reflect their needs and views, more children and young people able to stay at home and leave care early, and more placements of the right kind for children and young people in need (especially family-setting placements).

By increasing placement stability, increasing the number of foster placements, and reserving specialist residential placements for those that need them the most, we believe we will see less of our children and young people placed outside of the District (when appropriate). In the next 18-months, we will fill our new Head of Service for Sufficiency post. We will also improve our understanding of children and young people's needs, foster carers' needs (to improve recruitment and retention of carers), and local sites that could be developed (including through adaptations) into more residential care. This includes sites for specialist accommodation for those with the most complex health, educational, and emotional and behavioural needs. We will also have a detailed understanding of the impact of keeping children in the District on local education placements and health care services and the investment and approach needed to manage this. This work will inform the next, longer-term Sufficiency Strategy (2020-25).

2. **Background**

Following the September-October 2016 Ofsted inspection, Ofsted recommended Kirklees 'increase the availability of local placements to ensure that children and young people do not need to be placed at a distance from their communities' (recommendation 20 - [link](#)). This is a challenge for local authorities nationally. As of 31 March 2017, 40% of looked after children in England were placed out of their home area ([link](#)). This continues to be a challenge as the number of children in care nationally continues to rise ([link](#)). In the Improvement Plan, we committed to deliver this outcome through a Sufficiency Strategy and Action Plan. The Strategy was submitted to Improvement Board on the 10th May, to inform them of progress.

The Council has a statutory duty to take steps to provide sufficient accommodation within the District to meet the needs of our local children and young people, as far as reasonably practicable (Children Act 1989, Section 22G - [link](#)). This draft Strategy and Action Plan shows how the Council is meeting this statutory responsibility. It has been produced with the Government's guidance in mind, 'Securing Sufficient Accommodation for Looked after Children' (2010) ([link](#)).

The draft Strategy and Action Plan have been produced in line with the Shared Outcomes set out in the Corporate Plan. The current draft aims to help give children the best start in life by delivering three outcomes:

1. Our children and young people are confident our decisions more clearly reflect their needs and views;
2. More children and young people can stay at home and more leave care early; and
3. More accommodation of the right kind for children and young people in need.

The core indicator of its success will be that a smaller proportion of looked after children and young people are placed outside of the District. Other key indicators include more placement stability and a net gain in foster care households.

The draft has had significant contributions from teams across the Council, including the Children's Rights Team, Corporate Parenting, Commissioning, and the Corporate Strategy and Policy Team. We are continuing and extending these discussions in recognition of the impact of placement decisions on outcomes and activities across the Council. Recognising the centrality of partnership work in our new ways of working, we have also shared the draft with health and education stakeholders, including the Head of Joint Commissioning from the local CCGs. True to our commitment to strengthening the voice of the child in our decisions, we have also discussed the approach with some of our children at the Children in Care Council and the Care Leavers Forum. Those we have engaged with have voiced support for the Strategy's approach, whilst emphasising that specific placement targets require corresponding education and healthcare provision. We are looking into specific numbers and total financial implications over the next months.

We will continue to engage as we develop the draft Strategy and Action Plan further. This will help to ensure our efforts are coordinated. The Strategy and Action Plan are on the agenda for Corporate Parenting Board for discussion on 9th July.

Progress on delivering the outcomes in this Strategy will be monitored 6-monthly at Corporate Parenting Board. This will be against the indicators and performance measures and specific outputs in the finalised Action Plan. A key output is the next, 5-year Sufficiency Strategy, which will run from 2020-25.

3. **Implications for the Council**

3.1 **Early Intervention and Prevention (EIP)**

Improved sufficiency will require improving our early intervention and prevention, including ongoing support for children and young people at risk of being taken into care. This will help children and young people safely stay at home rather than being taken into care, which should leave residential and family-setting placements (such as foster) for those that need them most (because they can't safely stay at home).

3.2 **Economic Resilience (ER)**

We are looking at the possibility of more in-house residential provision for those who can't safely stay at home. If found to be viable, this could protect the Council from price-rises when demand rises.

3.3 **Improving Outcomes for Children**

Getting used to a new placement takes time and energy and so changing placements can be disruptive. It can also mean losing vital friends and support networks. Ongoing placement instability makes it more likely that a child or young person will have to move out-of-area if that child or young person has specific educational, health, or emotional and behavioural needs. Placement stability is supported by involving children and young people in decisions about their placements and care. A key part of the current draft Sufficiency Strategy and Action Plan is strengthening the voice of our children and young people.

It is better for our children and young people to live locally where they can retain friends, support networks, and their educational setting and where we can provide higher quality support. With more children and young people

supported to stay at home, there will be more local placements for those that need them most.

Family-setting placements such as foster care tend to produce better outcomes for children and young people than residential care. They aim to replicate, as close as possible, a loving and attentive family life. The draft Strategy aims to have a higher proportion of children and young people in family-setting placements such as foster placements. This should be better for our children and young people, as well as keeping local residential placements allocated to those of our children and young people for whom foster placements are not appropriate or have not been producing good outcomes.

3.4 Reducing demand on services

Through better early support and improved consideration of educational, health, and emotional and behavioural needs in placement decisions, this Strategy could increase demand on Early Help. It will also mean more demand for school places, including for specialist placements for those of our children and young people with complex needs, and local health services. However:

1. It will reduce financial demand on services through reduced expenditure on costly out-of-area residential placements; and
2. Supporting children and young people placed out of Kirklees, especially those placed more than 20 miles out of the District, requires additional resources to supporting those within Kirklees.

3.5 Other (e.g. Legal/Financial or Human Resources)

The Strategy will help us meet our sufficiency duty (as outlined in Section 2).

4. Consultees and their opinions

There is no statutory requirement to consult and no formal consultation has taken place. However, we have contacted key internal and external stakeholders for comment. Feedback received so far is summarised below. We are continuing to consider education, health, and specialist accommodation needs in developing the Strategy, as Tom Brailsford has suggested. We have noted the other comments and they are informing the future development of the Strategy.

Tom Brailsford (Head of Joint Commissioning – Children), NHS Greater Huddersfield and NHS North Kirklees CCGs: Supports the outcomes and principles of the Strategy. The detailed commissioning plans that will sit under these must approach sufficiency in terms of education, health needs, and specialist accommodation needs. A number of Kirklees' children need highly specialist placements and education settings. These are currently only found out of area and the quality of these placements is questionable and the cost high. Local specialist provision would keep these children in Kirklees, improve the quality of their care, and keep the costs lower.

Mandy Cameron (Head of Service, Education Safeguarding and Inclusion): Agrees with the above and suggests work through the High Needs Review and this Strategy should be aligned.

Sheila Lock (Independent Chair, Safeguarding Board): Approves of the Strategy, but would recommend further emphasis on community resources and the new local provider network (which will improve quality, skill exchange, and local relationships).

Diane Brookes (Commissioning Manager): Fully agrees that we need to develop local provision but we need to look at all options for local provision on a case-by-case basis (not focus exclusively on in-house provision), with clear costings. Reducing the

number of beds in residences might not be effective, according to the 2016 Narey report, and avoiding institutionalisation is more important. Training and staff culture in residential homes should be addressed.

Children in Care Council: Children told us they find smaller placements better and that they would like to be more involved in training foster carers and choosing placements. They emphasised the importance of treating every child on their own terms.

Care Leavers Forum: Young people told us the location of their placement is key to their success. They also said it would be good to be involved in foster carer training.

5. **Next steps**

- Continue to develop the draft in line with the comments above, those from Scrutiny, and those from Corporate Parenting Board (9th July);
- In collaboration with the Specialist Accommodation Board and education and health colleagues, develop a more detailed understanding of the numbers that could stay in or return to Kirklees and the specialist accommodation, education placements, and health service requirements for this; and
- Present financial implications to Executive Team.

6. **Officer recommendations and reasons**

1. That members of Scrutiny Panel note the content of this report and the draft Children's Interim Sufficiency Strategy and Action Plan (2018-19) (Appendix 1);
2. To ask Scrutiny to comment on the draft Strategy and Action Plan to contribute towards its further development (Appendix 1).

7. **Cabinet portfolio holder's recommendations**

N/A
