It was noted that no commitment was being made at this stage to develop a mass transit system, and more work would need to be undertaken around demand and a business case analysis. It was proposed to open a conversation with the public and stakeholders on solutions to future capacity requirements and delivering inclusive growth. The proposals were welcomed but discussion highlighted that there was no reference to Calderdale and parts of Kirklees in the maps provided and it was noted that work was underway to address this. It was stressed that the new transport routes must be evidence based and provide benefits to the whole region and also that current connectivity should be taken into account.

It was reported that the HS2 Environmental Impact Report had been published and a copy of the Combined Authority's response to the consultation would be circulated to Members prior to its submission. A report would be brought to the next meeting.

The key points arising from the announcement were outlined in the submitted report which had included confirmation that West Yorkshire had been successful in reaching stage two of the application process.

The Combined Authority's bid on behalf of the Leeds City Region for stage 1 had focussed around 3 themes and detailed proposals would be developed for the stage 2 submission. The Department for Transport (DfT) had made a contribution of £50,000 which would support the development of three bids, a 'small', 'big' and 'future mobility' bids, as part of the stage 2 submission. The DfT had released guidance for the 'small bid' which would have a value of up to £10m. This has to be submitted by 4 January 2019 and it is expected that a decision will be made by February 2019. It was agreed that the submission of the 'small bid' be delegated to the Combined Authority's Managing Director in consultation with the Chairs of the Combined Authority and Transport Committee.

In welcoming the opportunities the Transforming Cities Fund provided, it was requested that it be made clear to Government that a longer timeframe should be sought for such transformational programmes. Assurances should also be sought for year on year investment to provide more certainty. In respect of long term investment, it was reported that the City of York had submitted a bid for retrofitting buses which will be an issue affecting all parts of the City Region and was important for air quality and the economy through the jobs created.

A 'task and finish' working group had been set up to shape the stage 1 submission and it was proposed to continue with this approach for the development of stage 2 with representation widened to include North Yorkshire authorities.

A copy of the policy framework was attached at Appendix 1.

In respect of the Digital Framework, it was reported that working groups will be established to ensure the aspirations in the framework are realised and they will report to the Panels.

Members discussed and welcomed the ambition to be the first city region to meet the Paris Climate Agreement target. It was noted that further work would

be undertaken in respect of the projects identified in the Energy Strategy and Delivery Plan to achieve this and a report would be brought to a future meeting.

It was noted that the Green and Blue Infrastructure Strategy and Delivery Plan had identified projects which will help to make the region more resilient to climate change and improve the quality of life for residents. These included natural flood management and additional investment in cycling and walking. It was noted that the Combined Authority had made an initial contribution for a shared resource to deliver the projects identified in the Green and Blue Infrastructure Strategy and Delivery Plan.

In adopting the strategies as part of the evolving policy framework, the need to link these to how people's lives could be improved was highlighted and agreed. The challenges were also noted and it was considered important to build on the strengths and achieved successes and be ready to take advantage of future funding opportunities to move towards being carbon neutral.

67. Statement of Common Ground and Strategic Planning Review

The Combined Authority considered a report of the Director of Policy, Strategy and Communications on the Statement of Common Ground and Strategic Planning Review.

The report provided details of two work streams, the Leeds City Region Statement of Common Ground (SoCG) and the Leeds City Region Strategic Planning Review.

Members considered the draft SoCG which was attached at Appendix 1. It was noted that all local planning authorities are required to produce a SoCG and this had been drafted by Combined Authority officers in partnership with the Leeds City Region partner councils. Each partner would be signatories to the document and the Combined Authority is considered an 'additional signatory' as a body who have a role in the matters covered in a statement of common ground with plan-making powers.

It was reported that the recommendations agreed in 2015 in respect of the Strategic Planning Review Update have now been updated to reflect changing governance arrangements to progress in relation to cross-boundary working. Details of the changes were outlined in the report and these had been agreed by the partner councils and recommended to the Combined Authority for approval by the Place Panel.

It was noted that this currently shows a required use of reserves of £1.8 million, against the target previously agreed of £1.2 million. This position has been developed through the Member Budget Working Group, and with input from the Overview and Scrutiny Committee and an overview from the Chief Executives. Details were outlined in the submitted report and it was noted that further work was underway to close the funding gap to the previously agreed use of reserves of £1.2 million.

In respect of the LEP merger, it was reported that a bid had been made for transitional funds to meet some of the additional costs in establishing the new organisation but the outcome was not yet clear.

Councillor Groves provided an update on the joint work with bus operators in response to questions about bus fares. She advised that aside from MCard, ticketing and fares are commercial decisions taken by the operators. However this would be raised and clarification sought as part of the discussions being held with operators regarding partnership working.

In noting the draft business plan, comment was made that there should be a clearer statement of priorities alongside everyday business. It was noted that work was continuing and the final business plan and budget for 2019/20 will be brought to the next meeting on 14 February 2019 to enable the transport levy to be set in accordance with legislative requirements.

They were advised that the intention for the proposed changes was to speed up the progression and delivery of projects.
