Have you or your family ever owned or rented any land or property crossed by or adjacent to the route?

My parents and Mr Bradleys parents were very close friends and we visited the farm most weekends. As children and young adults many hours were spent playing in and around the farmyard and up and down the track.

The "fixed yardgate" as marked on the map was always closed on arrival and remained so whilst we were there. Many hours were spent playing football, bike riding or on homemade "lorry carts" on the route in question. Rails, usually a piece of metal pipe hung from a gate post one either side of the track, this was to stop various cows from wandering off down the track. They would graze on the far side of the track and when thirsty would walk back into the farmyard to drink and at milking times.

On this track I only ever saw farm vehicles belonging to Mr and Mrs Bradley, and my recollection is at no time did I ever see any other type of vehicle, on this track.
