

# Corporate Parenting Board – Highlight Report

## Date of Board: 23<sup>rd</sup> March 2021

Data is as at 28<sup>th</sup> February 2021, unless stated otherwise.

\* Benchmarking Source: Children's Social Care Benchmarking Tool (BMt) V3.10. Benchmarking data is from March 2020 unless stated otherwise. SN = Statistical Neighbours average, Eng. = England average. Where no equivalent published data is available, "N/A" is shown.

## Children Entering Care, Children in Care and Placement Stability

Key Indicator	Type of measure	Month End				*Benchmarking	
		Mar 20	Dec 20	Jan 21	Feb 21	SN	Eng.
4.02.01 Children in care - numbers in care per 10,000 of age 0-17 population.	Per 10,000 population aged 0-17	67.4 (675)	68.3 (684)	67.2 (673)	66.5 (666)	92.2	67.0
	Direction of Travel		↓	↓	↓		
4.02.04 Children in care by placement within and outside the LA boundary: Total placed outside Kirklees and more than 20 miles from home address	% (number)	12.7% (86)	11.4% (78)	11.3% (76)	10.8% (72)	12.9%	16.0%
	Direction of Travel		↓	↓	↓		
4.05.01 Placement Stability Within Year - LAC with three or more placements	% (number)	7.4% (50)	7.2% (49)	7.7% (52)	7.2% (48)	10.3%	11.0%
	Direction of Travel		↓	↑	↓

	Direction of Travel		↑	↓	↓		
Average number of SW changes	Average	0.57	0.53	0.51	0.48	N/A	N/A
	Direction of Travel		↑	↓	↓		

## Service Narrative

### What difference did we make?

- There is currently a decreasing trend in the number and rate of children in care from 68.8 (689 children) in Aug 20 to 66.5 (666 children) in Feb 21. The current 12-month average for Kirklees is 68.1 (682 children), above our 31 March 2020 published rate of 67.0 and the England 2020 rate of 67.0, but well below our Statistical Neighbours 2020 rate of 92.2.
- Of the 72 children placed outside of Kirklees and more than 20 miles from their home address, the large majority are placed in fostering.
- The Legal Gateway and Permanence Panels continue to support consistency in regard to decision making and planning around Placement moves for children and young people. A two weekly External Placement Review Panel is now in place, to provide better oversight of children who are not placed in council provision. We have undertaken an External Residential Placement Review of all children who are placed out of Local Authority to consider their care planning and explore options of returning to the local area if this is in line with meeting the children and young person's needs, we have already made progress reducing this number placed outside of Kirklees and more than twenty miles away from Kirklees.
- For Placement Stability the Placement support team are very active, and we have implemented innovative solutions to support several Placements. An example of plans to limit unplanned moves is as follows: where a foster carer or Placement is given 28-day notice, the Team Manager will coordinate a stability meeting within 5 working days to look at what can be provided to avoid Placement breakdown and to maintain the current Placement.

- Whilst the data shows improvement in certain areas we are focussing on the negative data particularly as it relates to three and four Placement changes in the previous 12-month period.
- As at the end of September 2020 there had been 267 social worker changes in the previous 12 months but there has been a healthy reduction to 235 by the end of February 2021. Whilst social work change data has improved compared to the previous month, we are mindful of the impact this has on our children and young people and we will continue to focus on the retention of staff and consistency in case allocation.

### What do we want to improve?

- Placement stability - we will also use lessons learned to inform practice. Always have Placement Stability meetings in place. We are currently reviewing our model of practice and have established much better links with our supervisory social workers to help with better support to our foster carers. We are currently reviewing our placement support so that we are able to enhance our offer to foster carers.
- Improve allocated social worker stability.
- Reduce number of children placed more than 20 miles from their home address. We aim to recruit more local foster carers to provide more local placement options.
- We aim to review all of our external foster placements to consider whether children and young people who are placed more than twenty miles from Kirklees, in line with their care planning and meeting the children and young person's needs, are able to return to more local placements.

## Looked After Children Reviews, Visits and Missing

Key Indicator	Type of measure	Month End				*Benchmarking	
		Mar 20	Dec 20	Jan 21	Feb 21	SN	Eng.
4.06.01: LAC Reviews Within Statutory Timescale	%	96.4%	98.4%	98.7%	98.7%	N/A	N/A
	Direction of Travel		↑	↑	↔		
4.07.01: LAC visits within statutory time-scale: % of LAC visited in line with Kirklees Practice Standards	%	85.9% (579/ 674)	91.4% (625/ 684)	87.7% (590/ 673)	90.8% (605/ 666)	N/A	N/A
	Direction of Travel		↓	↓	↑		
4.09.02: Missing children: a. No. of LAC having at least one Missing episode per month	% (number)	4.1% (28)	3.7% (25)	2.5% (17)	2.1% (14)	9.3%	11%
	Direction of Travel		↑	↓	↓		
b. No. of LAC that have more than one missing episode in the month (repeat Mispers)	% (number)	53.6% (15)	28.0% (7)	29.4% (5)	35.7% (5)	N/A	N/A
	Direction of Travel		↑	↑	↑		
4.09.03: Independent Return Interviews for LAC offered within 72 hours of the child being located	% (number)	81.5% (22/27)	81.3% (13/16)	83.3% (10/12)	66.7% (6/9)	N/A	N/A
	Direction of Travel		↑	↑	↓		

### Service Narrative

#### What difference did we make?

- 22 requests for Initial Review forms were received by the Child Protection and Review unit in January and February 2021 relating to 26 children in total – 24 of whom remain Looked After as at end February 2021. For all the referrals received, children and young people were allocated an Independent Reviewing Officer (IRO) within 24 hours and Initial Child Looked After Reviews were arranged within 4 weeks of the children and young people becoming Looked After.
- In January and February 2021, the Child Protection and Review Unit held 269 Looked After Review Meetings for children, with over 99% of these being held within timescales.

- Independent Reviewing Officers closely monitor Child Looked After Review timescales to ensure that this high percentage is maintained and improved upon, whilst a clear rationale is recorded on a child's file if there are circumstances which result in a child's review meeting not being held within statutory timescales.
- In February 2021, 11 children and young people were supported by an Advocate from the Children's Rights Team at their Looked After Review. 3 of these were for children living out of Kirklees.
- At the end of February 2021, 32 Children Looked After were supported by an Independent Visitor
- The timeliness of CLA visits has fluctuated with a 12-month low of 81.5% in Apr 20, and a high in Jul 20 of 94.6%. Performance in Feb 21 was 90.8%, above the 12-month average of 89.8%.
- There has been an increase with regards to the number of Children in Care who have received a statutory visit in line with practice standards we continue to monitor the visits as part of our service performance meetings.
- *Missing CLA:*
  - All children's homes are being encouraged to review missing reporting strategies with the placing Local Authorities to ensure they are fit for purpose and have a clear expectation on the home to try all avenues to locate the child before reporting them missing.
  - The Philomena Protocol documents are being used by all children's homes and semi-independent providers in Kirklees (introduced in July 2020). A number of meetings have been held with providers recently to consider the protocol, the information within it and expectations that all providers use it. Feedback showed that children's homes and semi-independent providers like the protocol and that the information held means that children are located more quickly and that it aids the Police to do this. It was recognised by the police that more work need to take place with the police call operators who receive the information as they are not all familiar with the protocol.
  - Provider meetings are run 3 to 4 times per year. During 2020 these have focussed on the Philomena Protocol and support through Covid-19. We agreed at the last meeting in December that 2021 dates will be booked in virtually with a wider agenda. Attendance has been good for virtual meetings; participation less so, but we will keep working on this to encourage as many providers as possible to contribute.

### **What do we want to improve?**

- The Service Managers are increasing focus on statutory visit compliance to improve the performance. Regular performance meetings are held within the service to ensure that we can improve our performance.
- Mid-way Reviews as focus point to address any issues of delay for children. Within the IRO Service we introduced Practice Guidance in February 2021 for Mid-Way Reviews to ensure that IROs provide clearer evidence of their oversight of children's plans, and that any concerns about drift and delay are addressed by clear recommendations with timescales being provided to Social Workers and their Managers.
- Independent Reviewing Officers to continue to liaise closely with Social Workers and the Children's Rights team to ensure that children are enabled to participate in their Reviews and that their voice is heard.
- Children's Rights Service have liaised closely with IRO Service and will shortly be relaunching updated online versions of Children's Consultation Documents for Looked After Reviews. These include Children's Feedback Forms about their Review, Children's Consultation forms for Reviews and Information about Reviews 'Booklet', with 2 different age-related versions.
- The Children's Rights Service has sought the views of children who have an Independent Visitor to understand their experience of this support during Covid-19, to help to inform ongoing service developments.

## Looked After Children Education Outcomes

Key Indicator	Type of measure	Autumn Term 20/21	Spring Term 20/21	Summer Term 20/21	Benchmarking	
					SN	Eng.
4.10.02 Personal Education Plans (PEP) up to date (current school age LAC with PEP in the last term)	%	100%				
	Direction of Travel	-				

Key Indicator	Type of measure	Month End				Benchmarking	
		Dec 20	Jan 21	Feb 21	Cumulative	SN	Eng.
Initial PEP completed within 10 school days of Virtual School being notified child came into care	%	100%	92%	100%	96%	N/A	N/A

Key Indicator	Type of measure	Month End				Benchmarking	
		Mar 20	Dec 20	Jan 21	Feb 21	SN	Eng.
4.10.05 LAC Persistent Absentees	%	9.1%	N/A	N/A	N/A	10.5% (2018/19)	10.9% (2018/19)
	Direction of Travel		-	-	-		
LAC with a mid-year school move	%	6	2	6	1	N/A	N/A
	Direction of Travel		↓	↑	↑		

**NB:** We are unable to report on the Persistent Absentee measure because of the COVID-19 lockdown implemented in March and the resultant changes to the educational offer.

### Service Narrative

#### What difference did we make?

- 100% of PEPs have been completed within the Autumn Term in-line with the new termly processes.
- The Virtual School is currently leading on all PEPs since the Covid-19 lockdowns began in March 2020. These are all currently virtually held meetings.
- 96% of initial PEPs have been completed within 10 school days of child coming into care since 01/09/2020. 3 were held out of timescales
  - 2 were due to the CLA start date having changed in Liquid Logic to an earlier date
  - 1 was due to Covid-19 (positive case in education setting – PEP had to be meeting rearranged)
- We continue to work with social work teams to improve both PEP and initial PEP completion and the quality assurance of PEPs. We have successfully moved to termly PEPs to meet statutory requirements.
- 75.5% of school moves have been carefully planned across the service to ensure a smooth transition with no break in provision, with 88% within the statutory timescale of 20 working days.

#### What do we want to improve?

- Our initial focus was the transition back into education following the Covid-19 school closures (vulnerable offer) with a continued focus on supporting young people who are having to work at home e.g. isolation / bubble closures. This will continue to be our priority with the current return to school for all pupils.
- We will continue to have a focus on termly PEP completion with transition support and support for working at home where necessary as key focus areas.
- Attendance / Persistent Absence (PA) remains a high priority and all pupils with attendance less than 90%. We will need to be mindful of some of the emotional issues for our young people as they return and respond creatively where there are issues or concerns. The attendance information is not

comparable with previous data due to the impact of Covid-19 e.g. illness, self-isolation, bubble closures

- We will continue to maintain a strong focus on pupils not in full-time education provision.
- We will continue to work across service to reduce the number of school moves (2018-19 (82), 2019-20 (64)) and to reduce the number of young people with a break in provision whenever possible.

## Looked After Children Health

Key Indicator	Type of measure	Month End				Benchmarking	
		Mar 20	Dec 20	Jan 21	Feb 21	SN	Eng.
4.11.11 Dental Checks within last 12 months - timeliness	%	78.0%	40.1%	33.1%	25.2%	N/A	N/A

	Direction of Travel		↔	↔	↓		

## Service Narrative

### What difference did we make?

- **Initial health assessments:** Kirklees Local Authority (LA) rolling 12-month data shows in February that **92.8%** were completed in timescales. The current Covid working restrictions have meant that almost all IHAs are being completed in timescales by the Paediatricians. They are completed by telephone due to the non-availability of clinics, as only 1 person is allowed in clinic with the child. An IHA requires input from parents, carers and social worker and may also include siblings and an interpreter.
- **Review health assessments:** Kirklees rolling 12-month data shows that **93.7%** & **88.5%** of the 'Developmental' assessments (under 5yrs old) and 'Annual' assessments (over 5 yrs. old) respectively, were completed in statutory timescales. The return of the re-deployed nurses to their substantive posts from Nov 20, has helped to provide an improving picture. The beginning of the year is the busiest time for RHA's and the wider workforce are still affected by capacity to carry out the assessments.
- **Dental Checks within last 12 months:** Kirklees rolling 12-month data shows that by February, **25.2%** of children had recorded attending the dentist when asked at their review health assessment. This is an all-time low recording. The closure of dentists during the Covid lockdown and the subsequent re-opening only to do emergency work, has prevented routine checks. Discussions with the Kirklees Dental Commissioner and NHS England in 2020 to ask for vulnerable children to be given priority routine dental checks was declined, stating that no vulnerable group can be given priority while surgeries are not up to capacity. An email was sent 26<sup>th</sup> Feb 21 to the Dental Commissioning Manager for West Yorkshire, to ask for an attached letter to be shared with dental practices to ask them to provide appointments to looked after children, as yet there has been no response. An email has gone out to all foster carers to ask them to approach dental practices, as

some green shoots have been seen, with a few practices agreeing to offer appointments. The catch up of the data will be driven by RHA's, so may not show a true picture for 12 months.

- **Registered at dentist (Data only from Locala):** Children 'new into care' have been affected greatly during the pandemic, as they have not been able to register with a dentist and be seen. This is concerning as neglect is still one of the major causes of children being brought into care and dental neglect can be significant.
- **Substance misuse:** This data must be considered in context. Only 1 young person (0.2%) has admitted or is known to use substances that significantly affect their life, when asked at their RHA. It is dependent on admission, the illegality of it and they may not wish to admit their use. It needs to be questioned if this is the most accurate source for this information, given its importance. Any young person misusing substances at any level is offered support. Young people who refuse support, are discussed with the local Substance Misuse Service, to try to offer an alternative response e.g. group work or access through other agencies. The Health Team are looking at using a verified tool, to provide a more uniform method of assessing the level of need.

## Looked After Children Convictions

Key Indicator	Type of measure	Quarter				*Benchmarking
		Jan-Mar 19/20 Q4	Apr-Jun 20/21 Q1	Jul-Sep 20/21 Q2	Oct-Dec 20/21 Q3	
4.12.01 Number of young people who have been looked after continually for 12 months or more aged between 10 and 17 who have offended and received a substantive outcome (Youth Caution/ Conditional Caution or a Court Order)	%	0.29% (1/347)	1.24% (4/321)	1.87% (6/321)	1.24% (4/321)	Eng.: 3.00% SN: 3.43% Y&H: 3.00%
	Direction of Travel	↓	↑	↑	↓	

## Service Narrative

### What difference did we make?

- For the year 2018/2019 65.8% of Children Looked After have successfully completed their interventions which in comparison with the previous year is a decrease of 10% but is however a much-improved picture from 3 years ago when less than 30% of Children Looked After successfully completed their interventions. For the 4th quarter of this year (Jan to March 20) 93.7% of Children Looked After successfully completed their orders- a huge improvement on the same period in 2018/19 where only 50% completed successfully.
- For the year 2019/2020 90.9% of Children Looked After have successfully completed their interventions which in comparison with the last year is an increase of over 25% (65.8%).
- For the 9-month period April to Dec 20, 85.7% of Children Looked After young people successfully completed their interventions. Whilst this performance is slightly worse than the same period of the previous year, it remains in line with that of the general population successfully completing their intervention.
- Whilst the numbers of Children Looked After offending remain small in the cohort, we are seeing a slight increase in the numbers compared to the same period last year. In the year to date we have seen a rise in the percentage of CLA offending from 2.88% (19/20) to 4.36% (20/21).

### What do we want to improve?

- Continued reduction in the numbers of Children Looked After offending. The overall cohort for the 20/21 year is smaller than the 19/20 year (321 compared to 347), but through continued interventions by the YOT, restorative processes, liaison with Children's Homes and creative out of court disposals it is likely the offending rate will continue to fall.
- To maintain the high level of successful outcomes achieved by Children Looked After, through creative interventions, restorative processes, liaison with Children's Homes and the continued development of the Youth Engagement Service.

## Care Leavers

Key Indicator	Type of measure	Month End				*Benchmarking	
		Mar 20	Dec 20	Jan 21	Feb 21	SN	Eng.
5.01.04 Children in care aged 17 years and 4 months with a Personal Advisor	%	69.4%	95.7%	89.4%	93.3%	N/A	N/A
	Direction of Travel		↑	↓	↑		
5.01.08 Local Authority In Touch with Care Leavers	%	91.9%	87.1%	85.1%	90.0%	93.0% (2019)	93.0%
	Direction of Travel		↓	↓	↑		
5.01.09 Care Leavers in suitable accommodation	%	84.3%	80.8%	79.3%	84.2%	89.3%	85.0%
	Direction of Travel		↓	↓	↑		
5.01.10 Care Leavers Employment, Education and Training (EET)	%	51.6%	48.0%	47.1%	49.5%	49.1%	53.0%
	Direction of Travel		↓	↓	↑		
5.01.11 Number of Care Leavers with a Pathway Plan that is up to date	%	91.1%	88.6%	86.2%	88.2%	N/A	N/A
	Direction of Travel		↓	↓	↑		

### Service Narrative

#### What difference did we make?

- *Contact with care leavers* – There was an increase in the percentage of Care Leavers we were in touch with during February 2021. This has to be viewed in the context of this group all being aged 18 plus. In some situations, young people do not wish to keep in contact with their Personal Advisor. The team work innovatively to keep in touch, we have a best practice protocol in place.
- *Number of young people in suitable accommodation* - Despite the recent pandemic there has been a significant impact on the increasing demands for tenancies. However, we have worked closely with our housing colleagues who have agreed to prioritise the properties for our young people and this has helped to improve our performance in February 2021. We continue to maintain strong links with KNH and Housing and the Housing Panel is enabling us to ensure that suitable accommodation is available. We have strong links with private housing providers and are considering how collectively we can improve our skills for independence training. We have continued to provide virtual life skills and pre-tenancy training during COVID19.
- *Kirklees Commitment to Care Leavers* – Unfortunately during the year our drop-in centres at no11 and no12 have been closed due to the COVID19 pandemic. However, as part of our recovery plan we are hopeful that we will be in a position to reopen no11 in April 2021 and no 12 in June 2021.
- *Children in Care aged 17 years and 4 months with an allocated Personal Advisors* – There has been an increase in performance on this indicator from to 93.3% in February 2021. We have had a number of new PA's who have recently joined the service which has enabled us to demonstrate a significant improvement and will enhance our transition planning with young people. However, 100% of the cohort do have either an allocated PA or an allocated Social Worker. We have been able to strengthen our pathway planning in relation to developing timely transitions with young people.
- *Education Employment Training* – Our performance in relation to Employment, Education and Training (EET) indicator is a focus for improvement. We have a C&K Careers Advisor in the Leaving Care Service. We have a pro-active multi agency group to improve opportunities in partnership working and there is a real desire to ensure our young people are afforded the best of opportunities in relation to EET. Due to the COVID19 pandemic some of our young people have unfortunately been in a situation where they have either been furloughed or made redundant from their employment. In order to offer support to our young people we have recently established a virtual clinic where extra support is available from our Careers Advisor. In February 2021 we have seen an increase in the number of young people who are either in employment, education or training.

## What do we want to improve?

- *Number of young people with a pathway plan* – The number of young people with a pathway plan has increased. Work is currently ongoing within the service and it is expected that the measure will improve further. We continue to work with the Personal Advisors to ensure pathway plans are completed in a timely manner to meet targets with a focus going forward on the improvement of the quality of plans, the involvement of young people and ensuring we capture their wishes and feelings.
- We have recently reviewed our financial offer to our care leaver along with our staying put policy and they will be launched following approval. We aim to review our commitment to care leavers and both will significantly improve and enhance our offer to our young people.

## Adoption

Key Indicator	Type of measure	Month End				*Benchmarking	
		Mar 20	Dec 20	Jan 21	Feb 21	SN	Eng.
5.02.01 Number of children adopted as a percentage of children leaving care (12 month rolling period)	% (number)	13.2% (25)	6.8% (14)	6.9% (15)	6.8% (15)	19.0%	12.0%
	Direction of Travel		↓	↑	↓		
5.02.03 A1 Average timescale (days) between the child coming into care and being placed with the adopter (Financial year to date)	Number	519.7	614.6	591.3	593.0	512.4 (15-18)	486.0 (15-18)
	Direction of Travel		↑	↓	↑		
5.02.05 A2 Average timescale (days) between Kirklees council receiving court authority to place a child and the council deciding to match the child with an adoptive family	Number	242.9	255.1	232.7	230.7	215.3 (15-18)	201.0 (15-18)
	Direction of Travel		↑	↓	↓		

## Service Narrative

### What difference did we make?

- To the end of Feb 21, 6.8% of children leaving care in a 12-month rolling period had been adopted, equating to 15 children. At the level of performance to Feb 21, Kirklees is significantly below the England rate of 12.0% (2020) and the Statistical Neighbours rate of 19.0% (2020).
- The average timescale between the child coming into care and being placed with their prospective adopter has been increasing and stood at 614.6 in Dec 20 before decreasing slightly to 593.0 in Feb 21. This remains well above the Statistical Neighbours average of 384.7 days and the England average of 376.0 days from the Adoption Scorecard (3-year average outcome to March 2019). Kirklees performance on the Scorecard was 388 days, so the average timescale has increased since this time.
- The average timescale from a placement order to matching with a prospective adopter decreased slightly to 230.7 days in Feb 21. Overall, this remains above the Statistical Neighbours average of 168.9 days and the England average of 178.0 from the Adoption Scorecard (3-year average outcome to March 2019). Kirklees performance on the Scorecard was 132.0 days, so there has been an increase in the average timescale since this time.
- We have established weekly clinics to support children's social workers who are undertaking child permanence reports, sibling assessments and considering whether a plan for adoption is appropriate. This is a joint initiative between the Assessment & Intervention Service and One Adoption and will be supported by regular training and workshops. One Adoption continue to attend legal gateway and permanence panels on a weekly basis in order to track children with a plan for adoption and to ensure a family finder is allocated.

- If an adoption Placement ceases, then One Adoption have a 'disruption review' and their new procedure is on our procedures website. They will be working with Kirklees staff on the implementation of this process. We have a structured Agency Decision Making process in relation to adoption planning. This includes legal and medical advice as well as advice from One Adoption West Yorkshire.
- Adoption Support Fund offers funding for ongoing support to adoptive families and children. There has been an increase in successful applications for Kirklees children that resulted in an increase of support, training and therapeutic input.
- The progression of Adoption cases is now monitored by Head of Service at the monthly permanence tracking panel ensuring a more robust approach to avoiding drift and delay.
- During the recent COVID19 we have had some difficulties in relation to being able to progress transition plans however as restrictions have been lifted we are now in a much stronger position in being able to progress these plans to be able to move children into their potential adoptive Placement. As a result of the CODID 19 pandemic we have experienced delays in relation to court hearings for application for adoption orders again has restrictions have lifted this is now an improving picture.

### What do we want to improve?

- Develop an even closer working relationship between One Adoption West Yorkshire and Kirklees social workers and managers, to ensure we maximise the potential benefits of the regional adoption agency in Kirklees. Regular meetings between the Service Managers in One Adoption and Assessment and Intervention have been established which will improve areas of communication and partnership working to assist timely adoption for our children.

## Fostering

### Service Narrative

#### What difference did we make?

- February 2021 saw 1 recorded in-house approval (including Family and Friends carers). The rolling 12-month total to February 2021 was 29 households. There were 3 in-house de-registrations in February 2021. The rolling 12-months total for in-house de-registrations is 34. This gives a net loss of 5 households.
- The number of children placed with Kirklees foster carers decreased to 240 at the end of January 2021 compared to 247 in December. This is just above the 12-month average of 239.

- The number of Family and Friends Placements decreased to 104 in January 2021 before reducing slightly to 101 in February. This is well below the 12-month high of 118 in Jun 20 (Note that this figure includes Reg 24 Placements). The 12-month average is 105.
- The February figure of 189 Independent Fostering Agency (IFA) Placements is a decrease over the 190 seen in December 2020. The 12-month average is 192.
- During the last few months, regular meetings have been held between Kirklees Fostering Network and the Fostering Service in order to offer support during the recent lockdown and to address some of the issues this has raised. We have provided emergency payments to our foster carers in order to assist with the extra pressures created during the last few months. We have provided laptops to our carers in order to ensure that the children in their care have access to online educational provision.

### **What do we want to improve?**

- Recruitment and retention of foster carers is a priority as is reducing the use of fostering agency care. We have recently undertaken a piece of work with our recruitment process and as a result we are developing a pathway with a more streamlined approach.
- During the last few months, we have been unable to hold live recruitment events however we have been innovative in creating virtual events. We continue to pursue a range of recruitment activity: To improve our internet search presence to prospective carers we have entered into an agreement with "Google Ads"; an advertising campaign highlighting the need for Forever Families for our children in foster care is currently taking place.
- We are currently working with the National Fostering Network to implement Foster Carer Mockingbird hubs in Kirklees. This model facilitates additional support to specific carers. We have recently recruited a liaison worker to support the implementation of the mockingbird model.
- We are currently in consultation with our supervising social workers, recruitment and assessment teams and foster carers in relation to taking a transformational approach to the modernisation of our fostering service. This will enhance our offer to our foster carers along with strengthening our recruitment and retention of our in-house carers.

## Appendix – Glossary of Terms

Term	Description
A&I	Assessment & Intervention (part of Family Support & Child Protection)
ADCS	Association of Directors of Children's Services
ASYE	Assessed and Supported Year in Employment (for a newly qualified Social Worker)
BSM	Business Support Manager
BSO	Business Support Officer
CCE	Child Criminal Exploitation
