

EIA STAGE 1 – SCREENING ASSESSMENT

PROJECT DETAILS

Name of project or policy: KAL Partnership Framework	
Directorate: Public Health	Senior Officer responsible for policy/service: Rachel Spencer-Henshall
Service: Public Health - Health Improvement	Lead Officer responsible for EIA: Martin Gonzalez
Specific Service Area/Policy: Health Improvement	Date of EIA (Stage 1): 08-Jun-21

Brief outline of proposal and the overall aims/purpose of making this change:

We have worked with KAL to ask them to increase their focus on addressing physical inactivity and health inequalities. KAL would continue to provide both statutory services (e.g. school swimming) as well as their universal offer. This approach will allow for facilities to have a more place-based offer (but which any KAL member could still access) and for cohort specific programming (for example pre- and post-natal offer) designed with target groups and which can broaden the customer base and help us address some of the health inequalities we know exist across Kirkcaldy.
