Such accounting estimates include land, buildings & investment property valuation and pension liability valuation. We are satisfied that the material judgements used in the preparation of the financial statements are soundly based, in accordance with the Code and adequately disclosed in the

financial statements. We understand our responsibilities includes identifying and considering alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the estimate used. We have noted that our external valuer has reported a material uncertainty regarding the valuation of retail assets due to the Covid-19 pandemic and considered the impact upon the investment property portfolio valuation on the balance sheet. We are satisfied that the methods, the data and the significant assumptions used by us in making accounting estimates and their related disclosures are appropriate to achieve

We continue to believe that the group and Council's financial statements should be prepared on a going concern basis and have not identified any material uncertainties related to going concern on the grounds that :
  - a. the nature of the group and Council means that, notwithstanding any intention to liquidate the group and Council or cease its operations in their current form, it will continue to be appropriate to adopt the going concern basis of accounting because, in such an event, services it performs can be expected to continue to be delivered by related public authorities

and preparing the financial statements on a going concern basis will still provide a faithful representation of the items in the financial statements

- b. the financial reporting framework permits the entry to prepare its financial statements on the basis of the presumption set out under a) above; and
