

Good morning [REDACTED]

I can confirm that I have now been given a copy of the objections you made to the public advertisement for the proposed installation of traffic calming and school Keep Clear markings on Oxford Road.

I understand that the traffic calming feature is to be moved and that this change, along with some other proposed changes are to be publicly advertised on-street again in the near future.

That said, given that your objection to the proposed School Keep Clear markings (detailed below) was received during the scheme's formal public advertisement, and we have not received any correspondence from you to say you are willing to withdraw this objection, an objection report will be prepared and considered at a future Cabinet Committee - Local Issues meeting for a decision in the future. We anticipate this will take place sometime in June or July.

You will however be notified of the exact date, time and location and invited to attend should you wish to put forward your views at that time.

Please do not hesitate to let me know if you require any further information.

Kind regards

Subject: Proposed traffic calming - Oxford Road

CAUTION: External email. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for the recent letter regarding the road traffic calming measures. Whilst this move is in the right direction i am against two of the proposed calming measures:

I do not wish to have zig zag lines outside my property. I park my van and other guests that come park their vehicles there also. Instead, i rather have permit holders parking outside my property.

Secondly, i dont want a 'road hump' next to my gate outside my property. The hump will be better further back instead.

I just want to confirm i am very against the zig zag lines. I park my vehicle at most times am and pm.

My number is [REDACTED] if you wish to call or you can email me at [REDACTED]

Kind regards

[REDACTED]
