 - George Hotel
 - Northumberland Street New Market
 - Town Centre Living inc. Estates Building/103 New Street
 - New Leisure Complex Kingsgate
 - Bus Station
 - New Street
 - Range of Business support measures emerging

HuddersfieldBlueprint

A Post Covid-19 Blueprint

Post Covid-19 refocus/review

Emerging core values across the Blueprint are:

- Family friendly – a more accessible, safer, attractive and connected town where families want to spend time.
- A place to invest in – bringing new, vibrant, sustainable business into the town centre and its edges.
- Inclusive - both in terms of investment and design to improve the economic, social and environmental well-being of the residents and visitors to the town centre.
- Principles of place shaping/urban design will be weaved in to all we do - including dementia friendly design.

Cultural Heart - Masterplan

- Museum
- Gallery
- Library
- Food Hall
- Venue
- MSCP

Cultural Heart – Key Milestones

An architectural rendering of a city block. The central focus is a park area with a winding path, trees, and a small pond. The surrounding buildings are rendered in a light, sketchy style. The title 'Cultural Heart – Key Milestones' is overlaid in blue text at the top left.

- Cabinet – September 2022
- Scrutiny – late Aug/Early Sept
- Planning application submission – Sept / Oct 2022
- Start on site – Spring 2023
- Practical Completion - 2026

Cultural Heart Public Realm – The Terraces

View along north Queen Street

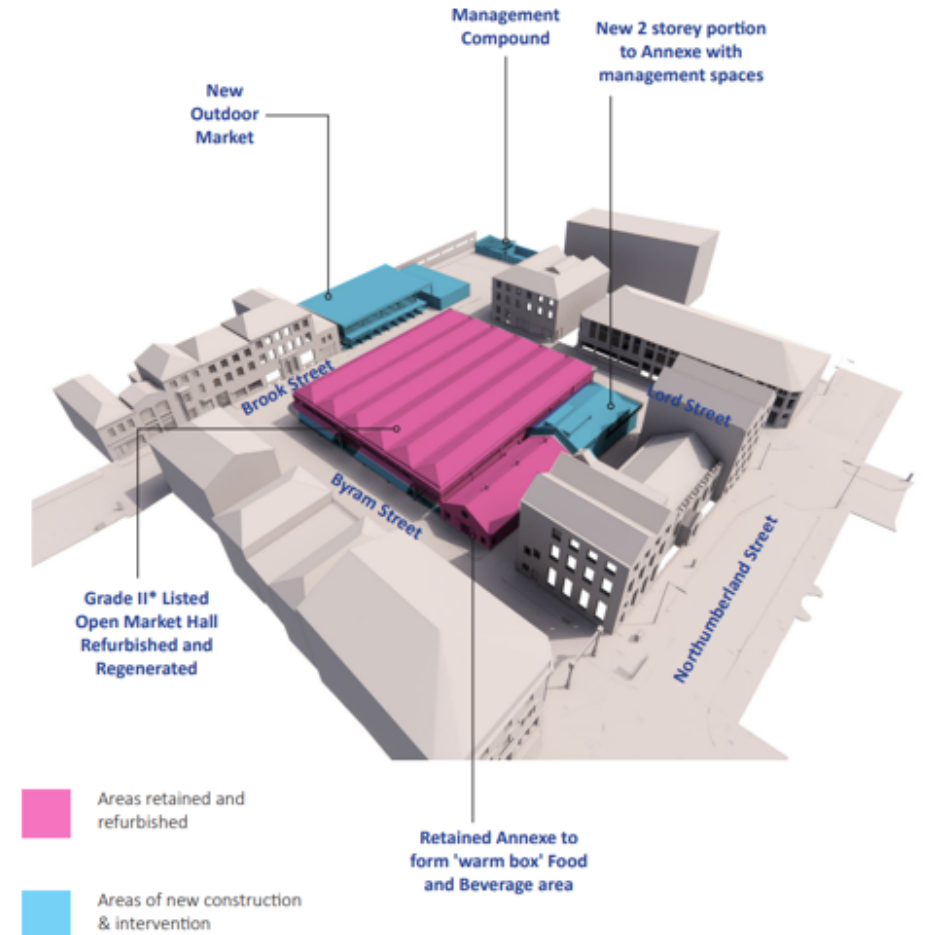

The George Hotel

- Now realising Blueprint aspiration – hotel space
- Currently on site – Phase 1 remedial works to be complete by January 2023.
- Development manager appointed - Queensberry
- Design Team appointed – June 2022
- Will agree preferred Operator – Late summer 2022
- Cabinet Target October 2022
- Scrutiny Late Sept 2022
- Planning – November 2022
- Start on site – June 2023
- Earliest Completion Late 2024

Northumberland Street Regeneration Area - New Market

- Improved Huddersfield town centre market on site of current open market with improved public realm

- Planning application submission January 2023
- Start on site subject to a successful bid– Public realm January 2023, Building contractor August 2023
- Practical Completion – March 2025

Northumberland Street Regeneration Area - New Market

Creating Great Public Realm

- £6m
- Advance cellar works – Started Oct 2021
- Early Stats work – April 2022
- Main works Start – August 2022
- Phased works – Stages to be agreed
- Completion – Feb 2024

Town Centre Living

Aim is to utilise heritage buildings to change and diversify housing offer in Huddersfield TC and support wider town centre uses

Estate Buildings

- potential to provide around 30 high quality, well sized (NDSS) residential units
- Wind/watertight works to Estates has begun

Somerset House

- potential to provide around 15 high quality, well sized residential units
- Cabinet July 22
- Suggested scrutiny asap

Huddersfield Bus Station

Main entrance – View beneath proposed new canopy showing new public realm & shop fronts

Project Summary

- Major upgrade to bus station entrances addressing safety, security and making a family friendly place with integrated active travel facilities
- Major transformation of internal bus station facility (WYCA)

Transpennine Route Upgrade

- Network Rail programme of works affecting the town centre include station warehouse car park being occupied, major transformation of train station, works to structures/viaducts across the town centre and affecting certain arterial routes into the town, particularly Bradford Road for temporary periods.

Enhanced train station

The Trans-Pennine upgrade will provide opportunities to enhance the station with good quality waiting areas and a choice of eating, drinking and convenience shopping. Importantly, it is an opportunity to connect St George's Warehouse with the station and the rest of the town.

Dewsbury Blueprint

For a town
with distinction

Getting The Basics Right

- Making Dewsbury town centre a safe place to be
- Bringing families and children into town
- Attractive and well maintained streets and spaces
- Looking after our heritage

Local Centres update

Holmfirth

- Linking in with local groups and organisations;
- Stakeholder meetings being held with consultants on 21st and 22nd July to look at masterplan concepts;
- Public consultation planned for October/November 2022.
- Scrutiny Late 22 early 23

Cleckheaton

Masterplan Consultation

27th June – 27th July with staffed sessions during that time including

Folk Festival

Publicity includes:

- Postcards to local homes

- Letters to town centre businesses

- Social media

- Press release (local news coverage)

- Internal Comms

Potential Scrutiny Autumn 22

Cleckheaton Town Centre Masterplan

Cleckheaton town centre has many strengths including a vibrant town centre with lots of independent shops, the Memorial Park, the Greenway, markets and festivals. We want to build on these strengths. We have developed three high level principles for the town centre using a place based approach focusing on physical interventions to create change in the town centre.

Principle 1: A green sustainable town

Enhanced natural assets and the creation of new green spaces and pocket parks to support the wellbeing and health of residents and sustainability of the town.

Principle 2: A connected and active town

Improved connectivity and legibility throughout the town, supporting safe and attractive pedestrian and cycling routes.

Principle 3: An inclusive diverse town

The town has a stronger sense of place by celebrating cultural assets through events, markets, and community facilities engaging all ages

Gateway:

- | | |
|---|--|
|  New Cinema |  Refurbishment needed |
|  New Housing |  Pedestrianisation |
|  Playground |  Sewing |
|  Improved Greenage |  Street art area |
|  Cleckheaton centre |  Community space |
|  Parking removed from street under pedestrian canopy |  New street lighting |
|  New/Refurbished public space |  Street Furniture |

The masterplan aims to deliver on the principles through two concepts for the town's centre:

Connecting Cleckheaton:

This aims to provide clear visual and active links through the town centre and increase accessibility for all. Spen Bottoms and the Greenway will be brought closer to the town centre and be better connected by pedestrianising Cheepside. New housing along Church Street will help to improve natural surveillance in the area.

Spaces for People:

The layout of the town centre is compact with car dominated narrow streets and pavements. The masterplan intends to keep Northgate open to traffic. Removing cars from Cheepside will create opportunities for people to dwell and enjoy the town centre. This, along with improvements to the Market and Savoy Square will create a town where people want to spend more time. These improved public spaces will encourage better interaction between people and create a more natural, green environment.

Marsden

- Work on a LUF bid for the Marsden Mill with the Crowther family due to be submitted 2nd Aug
- Renovations underway on the Mechanics Institute with Council support
- The Place Standard work will be launched in Autumn 2022
- Scrutiny subject to bid early 23

Batley
