Sir. First of all,

I am 75 yrs old and find the Task of contacting Kirklees frustrating and time consuming.

In July 2022 I sent in a complaint, regarding Mollsprings Brewery pointing out Health and safety and danger to the public plus various other complaints including unauthorised camping .I received acknowledgement of this complaint from Lee Stoney, " team leader " enforcement planning @kirklees [REDACTED] Stating that the case would be looked into and I would be contacted asap after. Like most enquiries concerning Kirklees council, this never happened being in poor health at that time I didn't follow it up ,when this application for a License was been made I checked the ref given by Lee Stoney and it doesn't seem to exist. You need to find this original complaint and explain to me why it wasn't acted upon. But on your excuses for rejecting my objection I will point out my reasons

1. 43 yrs ago when we moved in very few people even knew of the location, apart from 3 houses built 1878 and the Old Mill, which only housed a couple of tenants, working a 5 and a half day week, in the days pre Post code both the Police and ambulances struggled to find this area, it was very dark surrounded by trees and in all that time the mill was only burgled once to my knowledge and our garden shed was once broken into.. Unit 4 has been in the last 20 yrs a dyeworks, A stonecutting workshop, until recently a machine storage unit. It was then taken over by the recent tenant and a brewery built inside, Licensing these premises will attract noise in this quiet area. My July Complaint points out the problems we had over the summer. Points 2,3,4 are also in this complaint. Sole entrance is the only access to the houses, the whole site a health and safety problem Especially in the dark, uneven ground, skips with industrial rubbish, piles of stone's. Top end of the yard 30 concrete steps down to a toilet and lower level of the building with only one flimsy railing (during summer kids were actually being allowed to explore this site, whilst the parents were drinking at the tables) this I reported to HSE but again no further action. The entrance to the whole site is only just wide enough to get a fire engine or ambulance through, so surely our public safety is at risk. Before any License is approved it is your personal responsibility to organise a site visit. I require an acknowledgement of this letter, with the correct reference so that I can follow the progress of my complaint ,also if for some unknown reason you grant this license a contact where my solicitor can send any appeal to.
