

KIRKLEES HEALTH & WELLBEING BOARD**MEETING DATE: 29/06/2023****TITLE OF PAPER: Kirklees Health & Wellbeing Strategy (KHWS) Approach****1. Purpose of paper**

To refresh and confirm approach of Kirklees Health and Wellbeing Strategy Updates

2. Background

The Health & Wellbeing Board (HWB) is responsible for the implementation of the Kirklees Health & Wellbeing Strategy (KHWS). The following provides clarification on the approach to providing updates on the implementation of the KHWS and delivery against its priorities to the HWB.

The HWB previously asked for a in depth update on one priority (rotating) and briefer summary updates on the other two priorities to be provided at each HWB meeting. The Board expressed concern that there wouldn't be sufficient oversight if updates weren't provided at each meeting.

3. Proposal

At each HWB meeting there will be a KHWS agenda item with the following sub items:

KHWS

- Update on the implementation of the KHWS and related developments
- In depth update on one priority (rotating each meeting)
- Summary updates for the other two priorities

The general update on the implementation of the KHWS may include, for example, reference to the development of the website, launch of the self assessment tool, how partners are implementing, monitoring and reporting on work associated with the strategy, engagement activity associated with the KHWS etc.

The in depth update on the one priority will include:

- A general overview of work under the priority and optional area(s) to highlight in detail
- Successes
- Challenges
- Requests for support

The two summary updates will be brief, it is suggested they are limited to one slide each. They may include:

- A general overview
- An area to highlight
- Successes
- Challenges
- Request for support

Updates on the priorities will be presented by leads working on the priorities (except in exceptional circumstances). Given the range of colleagues and partners involved and breadth of work under each priority those presenting the updates may vary by meeting.

4. Financial Implications

None

5. Sign off

Richard Parry, Strategic Director for Adults and Health

6. Next Steps

Continue the approach to KWHS updates

7. Recommendations

Note and confirm the approach
