

E2b Advertisement of 'Proposals for publishing a new map of the County of York' (Greenwood's Map)

The Leeds Mercury, VOL XLVIII -No, 2599. Saturday April 15, 1815

PROPOSALS FOR PUBLISHING,
BY SUBSCRIPTION,
A NEW MAP of the COUNTY of YORK,
from an actual Survey, laid down upon the Basis of Col. MUDGE's Trigonometrical Survey of the Great Triangles of Yorkshire, at a Scale of Three Quarters of an Inch to a Mile, to consist of Two Parts, of Four Sheets each, Price Two Guineas each Part.

Published by Messrs. Robinson, Son, and Holdsworth, Leeds; Mr. J. Hurst, and Mr. C. Greenwood, Wakefield.

The Publishers beg Leave to announce, that in compliance with the urgent Solicitations of numerous highly respectable Characters, they are preparing a Map of the County of York, from an *actual Survey*.

As no such Survey of the County has been taken since that by Jeffreys, in the middle of the last Century, the Necessity of a *new and actual Survey* will be evident from a View of the Changes which have taken Place since that Period, in the Manufacturing and Agricultural Parts of this extensive County; from the great Increase of Population, and the consequent additional Number of Villages, Hamlets, Gentlemen's Seats, Manufactories, and Mills; as well as from the vast Extent of Waste Ground Inclosed, and brought into Cultivation; the various Improvements that have been effected in the Roads, the new ones made, and the Canals cut to facilitate Inland Navigation.

In this Map, the Ainsty of York, Craven, Richmondshire, Cleveland, Holderness, the Honour of Pontefract, Manor of Wakefield, the Wapontakes, and all other Divisions of Importance, will be distinctly noted, together with the boundaries of Townships and Parishes; the Course of Rivers and Brooks, Line of Canals, Public and Private Roads, Situation of Towns, Villages, Hamlets, Gentlemen's Seats, principal Farm-Houses, Manufactories, Mills, Mines, Mountains, Valleys, Lakes, Commons, Bays, Harbours, &c. will be correctly exhibited:—in Fact, to the Nobleman, the Country Gentleman, the Sportsman, the Merchant, the Manufacturer, the Tradesman, and the Traveller, it is hoped that this Map will be found both interesting and useful.

The great Triangles, with the Latitudes and Longitudes of the County, will be laid down from Colonel Mudge's Trigonometrical Survey, by Messrs. N. and F. Giles, of New Inn, London, as a grand Basis to the general Survey. The Angular Survey of the small Triangles will be made upon that Basis by Mr. C. Greenwood, of Wakefield, under the Inspection of Messrs. Giles, and Mr. C. Greenwood will also superintend the Admeasurement of the full Survey of the County. The Drawing of the Original Map for the Engraver will be made by Mr. William Mounsey, of Otley, and the Engraving executed by a first-rate Artist, under the immediate Inspection of Messrs. Giles and Greenwood.

WANTED, a CARD MASTER, in a COTTON MILL; apply to Messrs. Thomas Coupland and Son, Leeds, if by Letter, Post paid.
