Dear Sir

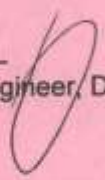

MELTHAM FOOTPATH 40 - MANOR FARM, LOWER GREAVE ROAD, MELTHAM.

I understand you act on behalf of Messrs P & D Cole with regard to the above site. Complaints have been received from members of the public concerning the obstruction of the footpath during the present demolition works. Please can you ensure the path is kept clear and is available for public use at all times. I would remind you that obstruction of a public right of way is an offence under the Highways Act 1980, Section 137 and may result in prosecution. A number of "keep out" notices are also displayed on or close to the footpath and these should also be removed.

An order under the Town & Country Planning Act 1990, S.257 diverting the footpath off the site was made by the Council in 1991. This order can be confirmed subject to the satisfactory provision of the new footpath and I would advise that you contact my area Rights of Way officer, ██████████ with regard to this matter.

Yours faithfully

D H GILL
Chief Engineer, DC
