Please list your environmental evidence/intelligence here [you can include hyperlinks to files/research/websites]: The outcome of the Stage 1 Integrated Impact Assessment indicates a negative Environmental Impact based on the lack of specialist advice and evidence to support the action being taken. There are no environmental implications to the transfer of the asset. The extent of the transfer is limited to the building. The building is in a relatively good state of repair and the grant of a long lease under the Community Asset Transfer policy will provide the applicant with the security to invest in improvements that will deliver energy efficiencies. A Stage 2 assessment is therefore not required.
