		<p>as well as Cabinet Members. The meeting was very interactive and following the introductions there was an ice breaker, the presentations and group exercises facilitated by the care leavers. A great amount of work had gone into preparing the event. Three videos of the care leavers were shared outlining their journey, the challenges they faced and the support they received.</p> <p>The agenda included young people and Kirklees Parenting Board member discussion on the topics of:</p> <ul style="list-style-type: none"> • Things to do • Homes for children • Health and wellbeing • Voice, influence and participation • Learning <p>The session ended with a quiz, and a recital of a poem written by one of the care leavers.</p> <p>Panel meeting on 11th October 2024 – Outcome of the Children’s Services Ofsted Inspection</p> <p>The Panel considered the outcome and recommendations of the Children’s Services Ofsted Inspection report, which was published on the 27th August 2024 and highlighted the key areas of improvement for the Service. The Ofsted Inspection covered all areas of the Children’s Service but focussed on children in need, children in care and care leavers. The Panel agreed that the Ofsted report was very positive and that it was encouraging to see the significant improvements that had been made since the last Ofsted report in 2019. The Panel asked that their thanks and congratulations be passed onto the Teams within Children’s Services for their hard work and commitment to improving the delivery of services and support to children and young people in Kirklees.</p>	<p>11.10.24</p>
--	--	---	-----------------

		<ul style="list-style-type: none"> • The Team will assess referrals at the front door and make a decision on what service was required. • Domestic abuse case consultants will take some of the early support and preventative work, for example around young people’s housing and trying to prevent homelessness. • Front Door had received 19,000 phone calls since 1.4.24 and all the enquiries have to be turned round in a 24 hour window. It was essential to get the timescales and right decision for families, seeking consent etc and it was a big challenge to meet the timescales. • The team worked with multi agency partners, for example, probation, youth engagement service, and the drug and alcohol service. Practice learning days were held and partners were invited to come and look at the work of the Team. A monthly meeting was held with partners to discuss anything that was not working and training was given to partners to help them understand the referral process. • A weekly Referral meeting was held to look at cases and review decisions where appropriate, this meeting was also attended by partners such as health and the police. The Panel agreed to attend and observe one of the Referral meetings. • Quote “The Front Door is engaged with young people, the child was at the heart of the conversation, high on the agenda and was the heart of everything we do”. • The Team were ‘growing their own’ staff and people were stepping up into roles. <p>Visit to the Children with Disabilities (CWD) and Access and Intervention Teams on 25th February 2025</p> <p>Members of the Panel met with the CWD and Access and Intervention Teams on the 25th February 2025 and the following key points were discussed –</p>	
--	--	--	--

		<ul style="list-style-type: none"> • The CWD Team support children with disabilities who have complex health and physical needs, autistic children and some with behavioural needs. • Support to children did not tend to reduce over time, but instead would usually increase as the child got older. There was an Adult Pathway Team to support the young person once they turned 18, and from 16+ there would be joined up working to help prepare them for adulthood. • The caseloads in the CWD Team were manageable and weekly supervision took place with Social Workers and the team worked closely with Assessment and Intervention. • The CWD Team worked closely with the EHCP Team in Education, Adults Social Care, Youth Engagement Service, other services within Children’s and the police. • Communication with a large number of children being supported by the CWD Team was non-verbal. Social Workers would use pictures and story boards to communicate with children or speak to the child’s school or family to find out the best way to communicate with the young person. The Panel agreed to see some examples of the story boards. • The Team would often struggle to find a placement for some children with disabilities as their needs could be very complex and not all foster carers were skilled enough in this area to care for them. • There were waiting lists for home adaptation referrals which could cause frustration to families.

Charities were often relied upon to take on the work. • The voice of the young person was a focus, to ensure it was heard, especially in the language used with young people and their families.
