1 Purpose of report

- 1.1 For the Licensing Committee to determine approval for new fees for taxi and private hire licensing. To also consider the objections received from the taxi and private hire trade regarding fees and charges and to set a date for the fees to come into force with or without modification.
- 1.2 Fees levied must be reasonable and should be set at a level to enable full cost recovery for the appropriate licensing services provided, so as to avoid any additional financial burden on the Council Tax Payer.

2 Background

- 2.1 Sections 53 and 70 of the Local Government (Miscellaneous Provisions) Act 1976 (“the Act”) allow the Council to charge fees for the grant of licences in respect of hackney carriage and private hire drivers, vehicles and operators. The legislation specifies the elements that can be included in the cost of the licence fee.
- 2.2 The cost of issue and administration can be recovered in drivers’ licence fees. In respect of vehicle and operator licences the reasonable cost of inspecting and enforcement may be charged. Additionally, the reasonable cost of providing hackney carriage stands and any reasonable administrative or other costs in connection with the foregoing and with the control and supervision of hackney carriages and private hire vehicles can be included in the fees.
- 2.3 The cost for the enforcement of unlicensed drivers, vehicles or operators cannot be included in the calculation. The Council cannot make a profit from licence fees and there must be a carry forward of any surplus. There can also be recovery of any deficit.
- 2.4 The last inflationary increase in licensing fees was implemented in October 2014. That increase was at the then rate of inflation in recognition of the economic downturn.

The proposed increases and decreases in fees are necessary to ensure the Licensing Section receives appropriate resources to:-

- i. carry out its administrative and inspection activities and maintain its enforcement role.
- ii. ensure that the section receives sufficient resources to ensure continued service delivery
- iii. achieve cost recovery.

3. Deregulation Act 2015

- 3.1 The purpose of the ‘Deregulation Act is:
 - i. to make provision for the reduction of burdens resulting from legislation for businesses or other organisations or for individuals
 - ii. make provision for the repeal of legislation which no longer has practical use

- iii. make provision about the exercise of regulatory functions and for connected purposes

3.2 The Act is some 169 pages and covers a multitude of issues.

3.2.1 In summary the amendments to the Deregulation Act will change the legislation affecting taxis and private hire vehicles in two ways:

- i. Allowing private hire operators to sub-contract bookings to operators licensed in a different district. The basis of this is the belief that this would improve an operator's ability to meet passengers' needs and make the passengers experience more convenient
- ii. Making the standard duration for all taxi and PHV driver licences 3 years. Shorter durations will only be granted on a case-by-case basis. This, the Government considers will reduce the financial and administrative burden of having to make more frequent licence renewals.

4. Challenge to Proposed Fees and Charges

4.1 On 23rd July 2015, a draft schedule of the proposed taxi and private hire fees and charges for the financial year 2015/16 was put out to consultation with the trade. A copy of the original proposals is attached at [Appendix 1](#) of this report.

4.2 A number of representations have been received from the trade and trade representatives. They object to the fees regarding drivers' badges on the grounds that they are excessive. No representations have been received regarding the reductions in vehicle licensing fees'. Copies of the consultation responses are at [Appendix 2](#)

4.3 Following receipt of the objections the Council has been in dialogue with trade representatives providing information on the fees setting process and responding to queries.

4.4 From the information supplied on the fees in [Appendix 1](#) the trade have identified one specific error which has been corrected. Despite this the objection has not been withdrawn.

4.5 The Council's process for setting the taxi and private hire fees and charges has not undergone detailed assessment for a number of years. With the introduction of changes to licence durations it was felt that a detailed costs assessment must be carried out on this occasion. The assessment is represented by the spreadsheet in [Appendix 4](#)

- 4.6 Licensing accounts are subject to annual inspection by the council's finance and audit team and no anomalies have been reported.
- 4.7 The Licensing & Safety Committee must consider the objections; approve the taxi and private hire fees and charges for 2015/16 with or without modification and set a date for implementation which must be no later than 13th November 2015.

5. Legal Requirements

- 5.1 As required by Section 70 of the Act, a notice was published in the Huddersfield Examiner and Dewsbury Reporter advertising the fees and charges and confirming they would take effect from 13th November 2015.

6. Detailed Proposals

- 6.1 An increase is proposed across all discretionary fees covering taxi & private hire driver and operator licensing. A decrease is proposed in respect of licensed vehicle fees. (Members are reminded that fees relating to licences issued under the Licensing Act for alcohol, entertainment, and late night refreshment activities, are set by central government and have not been increased since the Act came into force in 2005.)
- 6.2 The full range of proposed fees for taxi and private hire licensing are at **Appendix 3**. The fee setting process combines all of the business support officers and licensing officer's average timings for carrying out their functions for the particular application process and management of that licence. The timings have been established for the average application or licence, that being one that fits the norm rather than a complex or simple application. Although there will be applications and licences that are more or less complex than the norm, these tend to balance each other out. The rates have been calculated for each of the different bands of officers involved in the process which takes into account not only the officer's salary costs but also the direct costs associated with that licensing regime, e.g. central service recharges such as HR, IT building maintenance to direct charges for legal, Committee Services, etc.
- 6.3 To calculate the fee the officer's hours are put together and the costs for those timings established. The total amount is then deemed to be the reasonable fee for that application process and to ensure compliance for that particular licence

7. Resource Implications

- 7.1 Proposed fees will help maintain the level of Licensing's enforcement role across all licensable activities, including maintaining vehicle and driver standards within the Kirklees taxi and private hire fleet.

8. Consultees & their opinions

- 8.1 Trade and Members. **Appendix 1** gives the trade responses. No Member opinions recorded

9. Cabinet portfolio holder recommendation

Portfolio Holder, Cllr Steve Hall, has noted the report and would like to recommend that Cabinet approve the proposals in full in order that the current level of service delivery be maintained.

10. Officer recommendations

- 10.1 Officers recommend, that Cabinet approve the new fees structure, set out in Appendix 3, for implementation with effect from 13th November 2015.

Dear Member

Re: Proposed changes to taxi and private hire fees and licences.

From the 1st October 2015, Kirklees Council will be making Hackney Carriage & Private Hire Driver licenses (badges) available for a period of three years.

The implementation will be introduced over a rolling period so that three year grants of a Drivers Badge will coincide with the 3 yearly DBS renewal.

This means, any existing driver due for a new DBS from the 1st October this year will be allowed a three year badge subject to meeting all other criteria for a three year badge. If a DBS is not due until the following year, then a driver will be issued with a 1 year badge but may next year on renewal and after completion of the DBS receive a 3 year badge. Similarly, if a driver renewing after 1st October had his DBS last year, he can have a two year badge and once the DBS is renewed in 2 years' time, he can then have a 3 year badge.

Also on the 1st October changes to the duration of a Private Hire Operator Licences also come into effect. From that date, licences may be granted for a period of up to 5 years.

As part of the changes to badge duration we will also be delivering some driver refresher training to all existing badge holders. This training will be free of charge and drivers have now been written to with an invitation to attend on a specific date. If a driver cannot attend on the date they have been allocated, it is imperative that they contact the office to make alternative arrangements. If they fail to attend the training and fail to make alternative arrangements then they may find that their badge renewal is delayed until such time they have completed the training. I would welcome your support in encouraging drivers to attend the training.

The changes to licences will also have an impact on current fee charges and all our fees have recently been reviewed and a new table of proposed fees is attached for your information.

You will note that whilst some fees have increased others have reduced – in some cases quite significantly.

Any objections in respect of the above proposals must be submitted in writing to the undersigned by 22nd August 2015. If no objections are received the varied fees listed above shall come into effect on the 1st October 2015.

Yours Sincerely

Catherine Walter
Licensing Manager

Taxi Licensing 2015

Vehicle Change	£254.60	£173.00	-£81.60
Please see below examples of how the fee changes impact on two of the most common applications			
New driver and New Vehicle	Current Combined Cost £522.60	Proposed Combined Cost £464.00	Overall saving for drivers =£58.60
Driver and vehicle renewal	Current Combined Cost £258.60	Proposed Combined Cost £267.00	Overall drivers will pay additional £2.30

To Whom It May Concern

We the undersigned would like to object to the current proposed fees increases being proposed by Kirklees Licensing department.

The yearly renewal taxi badge and the three year badges are significantly very high and not proportional in relation to previous fee increases. The whole purpose of obtaining a three year badge was that it would be cost effective for both the drivers and the licensing department. This, however, has not been incorporated in the proposed fees where the three year badge is simply calculated by multiplying the yearly badge. The three year badge would free up valuable time and costs for the licensing department hence should be significantly cheaper to process. Across West Yorkshire Taxi Licensing fees for three year badges are significantly lower and cheaper compared to the proposed fee's which is the whole purpose of the three year badge.

One of the arguments for the significant price rises was the costs associated with taking drivers to committee. To that we, the undersigned, would like to propose charging the individual drivers a fee or costs for attending committee. This would reduce the unnecessary need for drivers to go to committee for trivial matters and hence reduce costs as the onus would be on the driver.

As part of the Deregulation Bill 2014-2015 the Government guidelines state:-

Making the standard duration for all taxi and PHV driver licences three years: and five years for all PHV operator licences. Shorter durations will only be granted on a case by case basis, where it is justifiable for a particular reason. **This will reduce the financial and administrative burden of having to make more frequent licence renewals.**

According to the guidelines the proposed fee's have gone against this and made the taxi badge significantly very expensive which defies its purpose.

We would ask Kirklees Licensing Department to reconsider the proposed taxi badge renewal both yearly and three yearly in line with guidelines and make it more cost effective which benefits both parties.

We look forward to working with you on the proposed changes.

Dear Catherine Walter

I am in receipt of your letter dated 6th July regarding proposed changes to taxi & private hire fees and licenses. I note there is a proposed increase of more than 70% on annual driver renewals with no DBS. I would like Kirklees Council to justify an increase of this enormity.

I look forward to hearing from you in due course, with a justifiable breakdown of this increase.

Your very concerned private hire driver.

Kirklees Licensing

Published by Catherine Walter · 30 July at 13:09 ·

From the 1st October 2015, Kirklees Council Hackney Carriage & Private Hire Driver licenses (badges) will be available for a period of three years.

The changes to licences will also have an impact on current fee charges and all our fees have recently been reviewed and a new table of proposed fees is attached.

You will note that whilst some fees have increased others have reduced – in some cases quite significantly.

Any objections in respect of the above proposals must be submitted in writing to the licencing manager by 22nd August 2015.

Involve: Fee increase for Hackney Carriage & Private Hire trade

Carry out consultation with the taxi & private hire trade and other stakeholders about proposed fee increases.

Atif Mukhtar, Suhail Fever Rashid and Basharat Rashid like this.

Basharat Rashid The badage fee is to high £333 it should be £250 including DBS

Like · Reply · 2 · 30 July at 22:26

Suhail Fever Rashid The taxi badge renewal for one year and three years is way to high. This needs to be looked at again to a reasonable price. The three year badge should be cheaper and not simply worked out by multiplying the one year badge three times.

Like · Reply · 1 · 31 July at 12:38

Atif Mukhtar Agree with Basharat Rashid, 3 year badges increase it too high considering the cost of processing will be reduced.

Like · Reply · 31 July at 12:40 · Edited

Ikram Hussain How can badge prices jump up so much, £52.50 to 90 pound, you have yearly put prices up on badges and MOTs, IT'S A RIP OFF!!!!

Response to Review of Taxi & Private Hire Fees

From: Arfan Asif, Town Cars

Why is a three year badge the cost of a 1 year badge multiplied by three when there is less work to do?

The cost of a new drivers badge should not be cheaper than previously, the cost of this should have gone up not down

Why can't vehicle costs be offset against badges?

What is a vehicle change – is this a hackney carriage charge?

New applicants should pay in full up front and not receive a refund if they have to go to Regulatory or Officer Panel

Operator Licences should be on a sliding scale - the larger the fleet the higher the fee?

Dear Catherine Walter

I did not receive any letter about the refresher course for taxi drivers as well as the proposed changes in the fees. I received an email by my office to inform about this matter and to raise this matter. I called the licensing department to request this information but have not received anything so far. The time is running out so I decided to write you this letter before the 22nd of August.

I note there is a proposed increase of more than 70% on annual driver renewals with no DBS. I would like Kirklees Council to justify an increase of this enormity.

I look forward to hearing from you in due course, with justifiable breakdown of this increase.

Please send me the date and time for refresher course as well.

Very Concerned

Current fees for Taxi badges

Renewal badge - £52.50

DBS check - £56.00

New fees for 3 year Taxi badges

Renewal badge including DBS - £333

breaking this ~~sum~~^{fee} down

You will be paying £90.00 per year for Renewal badge

DBS check will be £63.00

$$£90 - 52.50 = £37.50$$

Renewal

$$£63 - 56 = £7$$

DBS

$$37.50 \times 3 \text{ years} = £112.5 + £7 \text{ DBS} = £119.5 \text{ extra every 3 years.}$$

extra

Current fees x 3

$$\text{badge } 52.50 \times 3 = £157.50 + 56.00 = £213.50$$

DBS 56.00

Two issues here

• why badge gone up by 37.50 every year

• DBS check gone up by £7

20/8/15 O'Leary Badge 5557

im concerned about the fee of 3yrs badge and

DBS being £333.

currently badge renewal is £52.50 → 3yrs =

So how can you justify the 50% increase?
