

## HEALTH AND ADULT SOCIAL CARE SCRUTINY PANEL (V2)

POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19			
Issue	Put forward by	Approach and areas of focus	OFFICER/ HEALTH PARTNER COMMENTS
<b>FULL PANEL DISCUSSION ISSUES</b>			
<b>1. Financial position of the Kirklees Health and Adult Social Care Economy.</b>	Carried forward from 2017/18	Maintain a focus on the finances of the health and social care system in Kirklees to include: <ul style="list-style-type: none"> <li>• Reviewing any emerging transformation programmes and assessing their contribution to increasing efficiencies and impact on services.</li> <li>• Considering the various Cost Improvement Schemes (CIPs) and their impact on the delivery and commissioning of services.</li> </ul>	<p><b>Adult Social Care/Public Health</b></p> <p>We would suggest that this is done in a single way across all organisations to get some comparability. Need to think about whether it is adult social care or social care for adults and children or the entire council (given the contribution of many of the council's services to health and care)</p> <p>The Panel may wish to consider the Social Care Green Paper when it is produced in the summer (either under this item or the integration item)</p> <p>Timescale - not time critical</p>
<b>2. Kirklees Health and Wellbeing Plan (STP) to include work emerging from the West Yorkshire and Harrogate Health and Care Partnership (WY&amp;H HCP)</b>	Carried forward from 2017/18	Monitor progress and implementation of the Local and West Yorkshire plans to include: <ul style="list-style-type: none"> <li>• Assessing any emerging proposals (West Yorkshire wide) that relate to the measures that were proposed within the Health Optimisation Programme (withdrawn locally by the CCGs).</li> <li>• Reviewing any West Yorkshire wide reconfiguration proposals and assessing their impact on local services.</li> </ul>	<p><b>CHFT</b></p> <p>This will include Vascular and Stroke discussions, plus potentially other West Yorkshire Association of Acute Trust considerations on any fragile services where the Trusts are looking at different delivery models.</p> <p><b>Healthwatch Kirklees</b></p> <p>1. The Panel will need to plan some capacity for reviewing a likely reconfiguration of Hyper Acute</p>

**POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19**

Issue	Put forward by	Approach and areas of focus	OFFICER/ HEALTH PARTNER COMMENTS
<b>FULL PANEL DISCUSSION ISSUES</b>			
		<ul style="list-style-type: none"> <li>Assessing progress and effectiveness of the Care Closer to Home programme with a focus on the progress being made in reducing demand on hospital services including winter pressures.</li> <li>Considering the governance arrangements for West Yorkshire and Harrogate Health and Care Partnership.</li> </ul>	<p>Stroke Services across West Yorks.</p> <p>2. Would suggest that the Panel include a focus on the “Standardisation” programme emerging from the WY&amp;H HCP to include: What procedures of limited clinical value might be under consideration for change; and assessing the long term outcome of the NHSE consultation on reducing inappropriate prescription of certain medicines.</p> <p><b>Adult Social Care/Public Health</b>  A protocol might be helpful in due course about the role of local scrutiny and the West Yorkshire scrutiny committee, particularly on how both panels are sighted on things that are not “formal decisions” but rather emerging approaches or “non-decisions”</p> <p>Time scale- not time critical</p> <p><b>South West Yorkshire Partnership NHS Foundation Trust (SWYPFT)</b>  We can provide a link with the mental health collaborative and assist in connecting the Panel with the workstreams</p>

**POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19**

<b>Issue</b>	<b>Put forward by</b>	<b>Approach and areas of focus</b>	<b>OFFICER/ HEALTH PARTNER COMMENTS</b>
<b>FULL PANEL DISCUSSION ISSUES</b>			
<b>3. Integration of Health and Adult Social Care</b>	Carried forward from 2017/18	<ul style="list-style-type: none"> <li>Continue to monitor the planned activity outlined in the Integrated Kirklees Commissioning Plan.</li> <li>Assess the impact of the work on the robustness of Adult Social Care.</li> <li>Assess how effectively the Better Care Fund is being used to support and progress the work on integration.</li> <li>Review the effectiveness of the implementation of the integrated approach to the delivery of community services through Care Closer to Home.</li> </ul>	<p><b>CHFT</b> The Trust would welcome the opportunity to be part of a joint presentation on the Better Care Fund.</p> <p><b>Locala</b> Locala would welcome the opportunity to be involved in a presentation on the Better Care Fund.</p> <p><b>Adult Social Care/Public Health</b> To also consider the Green Paper when it is published it might be helpful to have an explicit link between Care Closer to Home, the community plan requested by the secretary of state and reconfiguration (section 11)</p> <p>Suggested time scale – Autumn 2018-</p>
<b>4. CQC inspections</b>	Carried forward from 2017/18	Review progress of key local providers following a CQC inspection to include looking at the provider action plan and outcomes.	<p><b>Adult Social Care/Public Health</b> It will be helpful to consider the extent to which this is done in a public forum or as a confidential briefing</p> <p><b>SWYPFT</b> We will provide information to the Panel when available.</p>
<b>5. Integrated Wellness Model</b>	Carried forward from 2017/18	Receive an update following completion of the procurement process.	<p><b>Locala</b> Have highlighted Social Isolation as a potential area for inclusion when the Panel to consider this area of work.</p>

**POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19**

<b>Issue</b>	<b>Put forward by</b>	<b>Approach and areas of focus</b>	<b>OFFICER/ HEALTH PARTNER COMMENTS</b>
<b>FULL PANEL DISCUSSION ISSUES</b>			
			<p><b>Adult Social Care/Public Health</b> The change is wider than the procurement exercise and so the Panel may wish to look at the model in the round.</p>
<b>6. Quality of Care in Kirklees</b>	Carried forward from 2017/18	Receive an annual presentation from CQC on the State of Care across Kirklees	<p><b>Locala</b> Would suggest that the Panel consider asking CQC on what work is being done to undertake a system wide review in Kirklees as has been conducted in other areas.</p> <p><b>Adult Social Care/Public Health</b> This will be helpful and could be potentially done in the same session as the safeguarding board report</p> <p>Suggested time scale – Autumn 2018</p>
<b>7. Suicide Prevention</b>	Carried forward from 2017/18	<p>Review progress of the Kirklees Suicide Prevention Action Plan to include:</p> <ul style="list-style-type: none"> <li>Looking in more detail at the relationship between the West Yorkshire and Harrogate Health Care Partnership (WYHCP) Suicide Prevention Strategy and the Kirklees Strategy/Plan.</li> <li>Challenges of data sharing.</li> <li>The work with GPs.</li> </ul>	<p><b>Adult Social Care/Public Health</b> With regard to the focus on the financial aspect we would suggest that it might be helpful to look at more than just the council's work on suicide prevention as it is something that many agencies contribute to.</p> <p>Time scale - not time critical</p>

## POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19

Issue	Put forward by	Approach and areas of focus	OFFICER/ HEALTH PARTNER COMMENTS
<b>FULL PANEL DISCUSSION ISSUES</b>			
		<ul style="list-style-type: none"> <li>Looking at the overall local financial envelope to support the Council's work on suicide prevention.</li> </ul>	<p><b>SWYPFT</b> Mike Doyle, Deputy Director of Nursing leads on this for the Trust and for the mental health collaborative.</p> <p>Please contact SWYPFT if any information is needed</p>
<b>8. Podiatry Services</b>	Carried forward from 2017/18	<p>Maintain an overview of the implementation of the new service to include :</p> <ul style="list-style-type: none"> <li>Assessing the impact on individuals who are housebound.</li> <li>Assessing the outcome of the further review of transport options to include a focus on the impact on services users of those clinics proposed for closure (particularly the centrally located clinics).</li> <li>Reviewing feedback of the alternative provision being provided by Age UK.</li> </ul>	<p><b>Healthwatch Kirklees</b> We would be happy to support Scrutiny with a short survey on this targeted at people who may have lost eligibility to Podiatry Services, and asking what they are doing now. Understanding the impact on people who have had services removed due to service change or rationing should be a theme for Scrutiny over the next 2 years.</p>
<b>9. Mental Health Services – Transformation Programme</b>	Carried forward from 2017/18	<p>Areas of focus to include:</p> <ul style="list-style-type: none"> <li>Overview of progress of the programme to include timelines covering key areas of transformation work.</li> <li>Where implementation has taken place considering the emerging outcomes and lessons learned.</li> </ul>	<p><b>Adult Social Care/Public Health</b> It would be helpful to look at this in the context of outcomes for individuals and the public's experience of access to mental health advice and support from all sources. For example does it feel integrated and holistic?</p> <p><b>SWYPFT</b> An update on outcomes of adult services will be available February / March 2019 and internal discussions are still in place regarding older people's services transformation. We do not anticipate any further information will be available for this year (2018).</p>

**POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19**

<b>Issue</b>	<b>Put forward by</b>	<b>Approach and areas of focus</b>	<b>OFFICER/ HEALTH PARTNER COMMENTS</b>
<b>FULL PANEL DISCUSSION ISSUES</b>			
			<p><b>Healthwatch Kirklees</b> It would be helpful to understand the Police perspective on Mental Health and Mental Health Crisis in particular. How are they seeing the impact of the transformation programme as the people who often end up supporting customers when commissioned services fail. Are things improving?</p>
<p><b>10. Interim Changes to Acute Inpatient Elderly Medicine, Cardiology and Respiratory Services provision at Calderdale and Huddersfield NHS Foundation Trust (CHFT).</b></p>	<p>Carried forward from 2017/18</p>	<ul style="list-style-type: none"> <li>Panel visit to CHFT to see first-hand the changes that have taken place.</li> <li>Subject to outcomes of the visit and panel sign off move item to Lead Member briefings to monitor impact of changes.</li> </ul>	<p><b>CCGs</b> Understand that there will be data available shortly that will cover the impact of the changes. This data could help to inform this area of work.</p> <p><b>Adult Social Care/Public Health</b> It would be helpful to have a clear articulation of the community plan including workforce and investment/capacity assumptions that sit alongside/enable the hospital changes and to understand the deliverability of the community changes that might be needed.</p>
<p><b>11. Wheelchair Services</b></p>	<p>Carried forward from 2017/18</p>	<ul style="list-style-type: none"> <li>Follow up progress of panel recommendations from meeting held in January 2018.</li> <li>Review plans being developed to reprocur services to include considering the proposed model and if required consultation plan and document.</li> </ul>	<p><b>Healthwatch Kirklees</b> This will be a key area of work for us going forward, and we will maintain our keen interest in wheelchair services. We will be watching attempts to ration access to wheelchairs that have been suggested in a number of forums recently. We will be keen to ensure that “joint working” arrangements with other wheelchair providers are exactly that, and not just the CCG passing its obligation to provide wheelchairs to another organisation.</p>

## POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2018/19

Issue	Put forward by	Approach and areas of focus	OFFICER/ HEALTH PARTNER COMMENTS
<b>FULL PANEL DISCUSSION ISSUES</b>			
<b>12. Adult Care Offer Consultation</b>	Carried forward from 2017/18	To receive and consider: <ul style="list-style-type: none"> <li>Results from the analysis of the consultation.</li> <li>The draft proposals</li> </ul>	<b>Adult Social Care/Public Health</b> Suggested Time Scale – August 2018
<b>13. Kirklees Safeguarding Adults Board (KSAB) 2017/18 Annual Report</b>	Standing item	To receive and consider the KSAB Annual Report.	

## POTENTIAL ISSUES IDENTIFIED FOR INCLUSION IN THE WORK PROGRAMME 2017/18

Issue	Put forward by	Approach and Areas of Focus	OFFICER /HEALTH PARTNER COMMENTS
<b>LEAD MEMBER BRIEFING ISSUES</b>			
<b>1. Care Act 2014</b>	Carried forward from 2017/18	Maintain a High level overview of the implementation of the Act.	<b>Adult Social Care/Public Health</b> This might be helpfully picked up alongside the Green Paper and the Care Offer
<b>2. All Age Disability and Adult Pathways</b>	Carried forward from 2017/18	Monitor progress of the various transformational workstreams and the redesign of Adult Services pathways.	
<b>3. Healthy Child Programme</b>	Carried forward from 2017/18	Maintain an overview of the progress of the implementation of the programme to include: feedback from practitioners and services users; and assessing the CAMHS cancellation policy.	<b>SWYPFT</b> This is delivered in partnership with Locala. We would welcome clarification on the focus on the 'CAMHS cancellation policy' and what information is required by the Lead Member.

4. Deprivation of Liberty Safeguards	Carried forward from 2017/18	Maintain a High Level overview of the numbers and impact on service.	Adult Social Care/Public Health This could be considered as part of the robustness of social care.
MONITORING ITEMS Routine follow up to previous recommendations to demonstrate Scrutiny outcomes			OFFICER /HEALTH PARTNER COMMENTS
Issue	Areas of Focus		
1. Review of Mental Health Assessments	An update outlining progress on the recommendations from the review was issued to the Panel in April 2018.  It has been identified that further work on dual diagnosis is required. This work will initially be led by the Lead Member and one other member from the Ad Hoc Panel. Findings will be reported back to full panel to consider next steps.		SWYPFT We would suggest that dual diagnosis work is informed by commissioners.
PROPOSED NEW ITEMS			OFFICER/HEALTH PARTNER COMMENTS
Issue	Put Forward by	Areas of Focus	
1. Mental Health Rehabilitation and Recovery Services Transformation Project.	Greater Huddersfield and North Kirklees CCGs	To receive and consider : <ul style="list-style-type: none"><li>Details of the new proposed service.</li><li>The Communication and Engagement Plan.</li></ul>	SWYPFT Work is underway with Kirklees CCGs. Potentially an update will be available in September / October 2018. This work will be essentially commissioner led so a presentation would need to be confirmed with the CCGs.
2. Carers in Kirklees An adult safeguarding review undertaken by Healthwatch Kirklees focused on the feedback of the experience of people with dementia and their carers.The report highlighted the important	Health and Adult Social Care Scrutiny Panel	The Lead Member has identified this issue as having the potential for being a focused pieced of work that could potentially be undertaken as a task oriented (ad hoc) review.  An initial scoping exercise will be carried out to identify the key areas of focus	Adult Social Care/Public Health This would be a helpful issue for the Panel to cover. SWYPFT We would be an interested party in this area of work because of the provision of dementia assessments and admiral

role of carers and the challenges they faced when trying to help a family member or friend with dementia navigate the social care support pathways			nurses. Being a carer is identified as a protected characteristic within SWYPFT.
<b>3. Diabetes in Kirklees</b> This issue was covered by the Panel in 2016/17 with a focus on the work being undertaken on prevention, supported self-care/education, primary care, foot care and specialist diabetes services	Health and Adult Social Care Scrutiny Panel	The Panel felt it would be helpful to receive an update on prevalence rates in Kirklees and to look more closely at the work being done by Public Health to help people manage and control the condition.	<b>Adult Social Care/Public Health</b> The Panel could consider if this issue is about the whole system focus on prevention and the role that every agency has to advise and support at every contact.
<b>4. Primary Care in Kirklees</b>	Greater Huddersfield and North Kirklees CCGs	To be identified	<b>CCGs</b> Have noted that the work programme does not include any specific focus on primary care. CCGs feel that it may be helpful to discuss this issue in more detail with the Panel as to what could be considered and when.
<b>5. NHS Continuing Healthcare</b> Continuing care means care provided over an extended period of time, to a person aged 18 or over, to meet physical or mental health needs that have arisen as a result of disability, accident or illness.	Healthwatch Kirklees	To be identified	<b>Healthwatch Kirklees</b> HealthWatch is currently looking at continuing care in response to a number of stories that they have heard recently. Healthwatch Kirklees would request that the Panel also consider this matter and ask : <ol style="list-style-type: none"> <li>1. CCGs for an overview of what has happened to continuing care over the last 3 years;</li> <li>2. The Council to reflect back the impact it has had on the authority in the last 3 years.</li> </ol>
